PROFESSIONAL SUMMARY

CTO/CPTO and engineering executive in Geneva with experience owning product, technology, architecture, roadmaps, budgets and delivery across digital platforms, regulated fintech, cloud, data systems and enterprise AI. Built a production consumer mobile platform from zero, led a FINMA-regulated bank's technology organization, scaled institutional platform engineering to 50 people, and introduced AI-assisted operating models. Strong fit for ASmallWorld's next chapter: CRM activation, personalization at scale, member data architecture, lean product engineering, vendor integrations, security/governance and AI automation tied to commercial outcomes.

CORE COMPETENCIES

- CTO / CPTO leadership
- Product engineering
- Consumer mobile platforms
- CRM and martech
- Personalization at scale
- Member data architecture
- Commercial roadmap
- AI automation
- Vendor integrations
- Security and governance
- Data analytics
- Team hiring and development
- Executive stakeholders
- Lean delivery

WORK EXPERIENCE

Bazzile Technology SA

Aug 2020 - Present

Chief Product & Technology Officer, Partner - Geneva, Switzerland

- Lead product and technology for a consumer mobile application business across product strategy, architecture, backend, cloud, APIs, mobile delivery and AI-enabled product work.
- Built the first production version end-to-end with Elixir/Phoenix, PostgreSQL, APIs, mobile delivery and production infrastructure.
- Owned product roadmap, technical direction and delivery trade-offs in a lean environment, balancing customer experience, speed, reliability and platform maintainability.
- Led a small multidisciplinary team across engineering, product and technical success, including hiring, coaching and external-provider coordination.
- Designed and industrialized a voice AI agent using generative AI models and agent orchestration.
- Operated a Swiss-hosted production platform with 99.95% uptime through reliability, observability and incident practices.

FlowBank

Aug 2022 - Aug 2023

Global Head of Technology, Executive Director - Geneva, Switzerland

- Led a ~40-person technology department for a FINMA-regulated digital bank across software engineering, data, infrastructure, service delivery and providers.
- Owned technology roadmap, annual budget and execution indicators for the Executive Committee.
- Created target architecture and a real-time data platform connecting trading, compliance, finance, marketing and quantitative teams.
- Initiated core projects including CRM and Core Banking, linking business functions, data flows and platform modernization.
- Initiated transition from on-premise infrastructure to AWS and brought DevSecOps culture to the department.
- Managed vendor renewals, external providers and capacity trade-offs across regulatory, operational and business priorities.

Ripple / Metaco

Sep 2023 - Oct 2025

Director Software Engineering - Geneva, Switzerland

- Led up to 50 professionals across Geneva and San Francisco developing a regulated blockchain custody platform for institutional financial clients.
- Managed managers, tech leads and engineering teams; supported hiring, levelling, coaching, career growth and team effectiveness.
- Drove architecture across products and services, ensuring maintainability, security, scalability, operational excellence and coherent platform direction.
- Partnered with leadership, Product, Field Engineering and clients to shape technical strategy and customer-specific outcomes.
- Created a dedicated L3 support squad to absorb client incidents, improve escalation handling and protect roadmap delivery.
- Established practices for monitoring, design reviews, QA, release management, process automation, testing strategy and technical debt control.

SCRIPT

Nov 2025 - Dec 2025

Head of Engineering - Zurich, Switzerland

- Led engineering strategy and operations during a focused transformation mandate, defining and delivering the product and engineering roadmap.
- Drove company-wide AI adoption by implementing Claude Enterprise through Slack with Linear, email and calendars.
- Created an always-on AI assistant for executive and cross-functional work across technology, sales and marketing.
- Introduced Linear company-wide and reorganized teams around delivery and L3 support squads to improve ownership and accountability.

Wonderful

Jan 2026 - Mar 2026

Field CTO - Zurich, Switzerland

- Drove client delivery and presales for an enterprise AI platform with Swiss enterprise prospects, including financial services and regulated organizations.
- Presented AI agent workflows, RAG, voice AI, automation pipelines and integration patterns to C-level and technical audiences.

Earlier engineering, platform and audit roles

2009 - 2021

Pictet, UBP, BCP, SIX, Glencore, Swissquote, Rolex, Axway - Switzerland / France

- Built software and platforms across asset management, banking audits, commodity trade finance, structured products, commodity trading, Forex, IAM and enterprise applications.

- Created EKS clusters, Helm charts and Terraform infrastructure at Pictet; introduced Kubernetes, Docker, GitLab and CI/CD pipelines at BCP.
- Led IT/security audits at UBP covering governance, risk, IAM and GDPR controls, including one application-role bug affecting 0.5% of users.

SELECTED PROJECTS

Consumer product platform. Built Bazzile's first production backend, PostgreSQL data model, APIs, cloud infrastructure and mobile delivery foundation.

CRM and data architecture. Led FlowBank data architecture connecting marketing, compliance, finance, trading and quant teams, with CRM and core-banking modernization initiatives.

AI-assisted operating model. Implemented Claude Enterprise at SCRYPT with Slack, Linear, email and calendar integrations; designed RAG, voice AI and workflow demos at Wonderful.

EDUCATION

EIGSI La Rochelle

Master of Science, Computer Science
2003 - 2009

B9lab

Ethereum Blockstars, Blockchain - 2019

MongoDB University

Data Modeling / Warehousing and Database Administration

SKILLS

Leadership: CTO/CPO, Head of Engineering, Director Software Engineering, Field CTO, manager-of-managers, hiring, coaching, team design

Consumer/platform: product roadmap, mobile platforms, APIs, personalization foundations, member/customer data, lean delivery, vendor management

CRM/data: CRM initiatives, marketing data, business analytics, data platforms, governance, GDPR controls, executive reporting

Technology: AWS, Kubernetes, EKS, Terraform, Helm, CI/CD, DevSecOps, SRE, APIs, PostgreSQL, Elixir, Java, Scala, Node.js, Python, Go, LLMs, RAG, voice AI
