PROFESSIONAL SUMMARY

CTO and engineering executive for global technology transformation across fintech, logistics-adjacent platforms, cloud, cybersecurity, and regulated systems. Led teams up to 50 people, built technology strategy and target architecture, managed budgets and executive stakeholders, and delivered secure platforms across banking, blockchain custody, DevOps, and enterprise AI. Now focused on applying IT/OT architecture, cybersecurity governance, and portfolio-wide technology standards to terminal operations and global supply-chain infrastructure.

CORE COMPETENCIES

Technology strategy for global operations

IT / OT / communications architecture

Cybersecurity governance and standards

Portfolio-wide technology blueprints

Board and risk committee reporting

Project governance and investment planning

Stakeholder and partner negotiation

Terminal/logistics technology transformation

WORK EXPERIENCE

Wonderful 2026 - Present

Field CTO, Switzerland | Zurich, Switzerland

- Lead enterprise presales and client delivery for Swiss technology buyers, translating complex AI platform capabilities into business value.
- Bridge client needs and product capabilities across technical and executive stakeholders to improve delivery outcomes.
- Use a strong Romandie network to open strategic conversations with Swiss enterprise companies.

Bazzile Technology SA 2020 - Present

Chief Product & Technology Officer, Partner | Geneva, Switzerland

- Lead product and technology strategy across architecture, backend, cloud, mobile delivery, cybersecurity risk assessment, and provider management.
- Delivered new backend and mobile application versions using React Native, React, and Elixir while leading a 3-person engineering team.
- Selected and managed cloud infrastructure and coordinated external providers to meet business needs quickly.

SCRYPT 2025

Head of Engineering | Zurich, Switzerland

- Defined and delivered the product and engineering roadmap during a focused transformation mandate.
- Reorganized technology teams around delivery and L3 support squads, improving ownership and operational accountability.
- Implemented Claude Enterprise through Slack with Linear, email, and calendars for always-on cross-functional coordination.

Ripple / Metaco 2023 - 2025

Director Software Engineering | Geneva, Switzerland

- Led up to 50 professionals developing a blockchain custody solution in a regulated, security-sensitive environment.
- Defined technical architecture across multiple products and services, ensuring coherence, maintainability, reliability, and operational excellence.
- Established practices for monitoring, code and design reviews, QA, release management, L3 support, and technical debt control.
- Partnered with leadership on technical and organizational strategy while maintaining close relationships with key clients.

FlowBank

2022 - 2023

Global Head of Technology, Executive Director | Geneva, Switzerland

- Led a 40-person technology department for a neobank covering banking services and crypto-enabled products.
- Built the technology vision, target architecture, roadmap, and budget for the Executive Committee.
- Initiated the transition from on-premise infrastructure to AWS and brought DevOps practices into the department.
- Launched core projects including CRM and Core Banking while enabling data-driven services for quantitative teams.

Pictet Asset Management

2021

Site Reliability Engineer, Contractor | Geneva, Switzerland

- Technically led an End User Computing implementation in a security-constrained environment.
- Created EKS clusters, Helm deployment structures, and Terraform infrastructure.
- Led 2 SREs and provided internal React training.

UBP - Union Bancaire Privee

2018 - 2020

Internal Auditor | Geneva, Switzerland

- Led IT and banking security audits covering governance, risk, procedures, GDPR-related controls, and annual risk assessment.
- Prepared recommendations for leadership and wrote audit reports in French and English.
- Uncovered an application-role bug affecting 0.5% of bank users during an identity access management audit.

BCP / SIX / Glencore / Swissquote / Rolex / Axway

2009 - 2018

Software Engineer, Technical Lead, Contractor | Switzerland and France

- Built banking, trade finance, structured products, commodity trading, Forex, identity management, and SEPA systems.
- Introduced CI/CD, Kubernetes, Docker, GitLab pipelines, Bamboo, Nexus, Maven, TDD, Scrum, and pair programming across teams.
- Led offshore and cross-functional teams, captured user needs, and translated business requirements into technical specifications.

RELEVANT PROJECTS

Digital Bank Technology Transformation FlowBank

Led target architecture, AWS migration, DevOps culture, budget planning, CRM, Core Banking, and data-driven service enablement for a Swiss neobank.

AWS, DevOps, core banking, CRM, executive roadmap

Blockchain Custody Engineering Organization Ripple / Metaco

Led engineering for a blockchain custody platform, with focus on architecture, security, technical debt, L3 support, release quality, and client-facing delivery.

Blockchain custody, security, architecture, L3 support

Enterprise AI Operating System SCRYPT

Implemented Claude Enterprise connected to Slack, Linear, email, and calendars to support executive and cross-functional coordination.

Claude Enterprise, Slack, Linear, automation

Cloud and DevOps Platform Work Pictet / BCP

Built EKS clusters, Helm deployment structures, Terraform infrastructure, and CI/CD pipelines in regulated environments.

EKS, Kubernetes, Terraform, Helm, GitLab CI/CD

EDUCATION

Master of Science, Computer Science EIGSI La Rochelle

2003 - 2009

Ethereum Blockstars, Blockchain B9lab

2019

Data Modeling/Warehousing and Database Administration MongoDB University

2013 - 2014

CERTIFICATIONS

Programming with Google Go

Ethereum Developer

Quorum

SKILLS

Leadership: CTO, Head of Engineering, Director Software Engineering, hiring, coaching, squads

Architecture: IT strategy, cloud, AWS, Kubernetes, EKS, Terraform, Helm, network/security concepts

Engineering: React, React Native, Elixir, Scala, Java, Spring Boot, Angular, Node.js, Python, Go

Governance: cybersecurity, audit, risk, GDPR, identity access management, board reporting

Languages: French native/bilingual, English full professional, German limited working
