PROFESSIONAL SUMMARY

Field CTO and technology executive focused on responsible AI adoption, strategic delivery and regulated enterprise technology. Led organizations up to 50 people across AI platforms, fintech, blockchain custody, banking, cloud, data and governance. Strong fit for OpenAI for Government strategic delivery: executive stakeholder translation, technical scoping, adoption metrics, delivery governance, risk management, customer confidence and practical deployment of AI tools in high-trust environments.

CORE COMPETENCIES

Strategic AI delivery Public-sector-ready adoption ChatGPT Enterprise adjacency OpenAI Platform API adjacency
Executive stakeholders Delivery governance Milestones and acceptance criteria Risk and security alignment AI transformation
Agentic workflows / RAG Regulated fintech Technical scoping Cross-functional leadership Customer adoption metrics

WORK EXPERIENCE

Wonderful

Jan 2026 - Mar 2026

Field CTO - Zurich, Switzerland

- Drove client delivery and presales engagements for an enterprise AI platform with Swiss enterprise prospects, including financial services and regulated organizations.
- Led technical demonstrations of AI agent workflows, RAG, voice AI, automation pipelines and integration patterns for C-level and technical audiences.
- Translated complex AI platform capabilities into business value, adoption plans, technical options and measurable use cases.
- Bridged customer needs and product capabilities to improve delivery clarity, stakeholder confidence and product feedback loops.

SCRYPT

Nov 2025 - Dec 2025

Head of Engineering - Zurich, Switzerland

- Led engineering strategy and operations during a focused transformation mandate, defining and delivering the complete product and engineering roadmap.
- Drove company-wide AI adoption by implementing Claude Enterprise through Slack with Linear, email and calendars.
- Created an always-on AI assistant for executive and cross-functional work across technology, sales and marketing.
- Introduced Linear company-wide and reorganized technology teams around delivery and L3 support squads to improve ownership and accountability.

Ripple / Metaco

Sep 2023 - Oct 2025

Director Software Engineering - Geneva, Switzerland

- Led up to 50 professionals across Geneva and San Francisco developing a regulated blockchain custody platform for institutional financial clients.
- Maintained close relationships with key institutional clients to support specific use cases and delivery outcomes, including the HSBC Hong Kong implementation.
- Led large multi-quarter engineering initiatives with prioritization, risk anticipation, capacity planning, contingency planning and delivery accountability.
- Defined and drove architecture across multiple products and services, ensuring coherence, maintainability, security, scalability and operational excellence.
- Established practices for monitoring, design reviews, QA, release management, automation, technical debt control, testing strategy and L3 support.
- Partnered with leadership, Product, Field Engineering and clients to shape technical and organizational strategy.

FlowBank

Aug 2022 - Aug 2023

Global Head of Technology, Executive Director - Geneva, Switzerland

- Led the full technology department of approximately 40 people for a FINMA-regulated neobank across engineering, data, infrastructure, service delivery and outsourced providers.
- Prepared and owned technology roadmap, annual budget, execution indicators and architecture direction for the Executive Committee.
- Created target architecture and real-time data platform connecting trading, compliance, finance, marketing and quantitative teams.
- Managed vendor renewals, external providers and capacity trade-offs across regulatory, operational and business priorities.
- Initiated the transition from on-premise infrastructure to AWS and brought DevSecOps culture to the department.

Bazzile Technology SA

Aug 2020 - Present

Chief Product & Technology Officer, Partner - Geneva, Switzerland

- Lead product and technology for a real estate mobile application business, covering product strategy, architecture, backend, cloud, APIs, mobile delivery and AI-enabled product work.
- Designed and industrialized a voice AI agent for real estate search using generative AI models and agent orchestration.

- Operated a Swiss-hosted production platform with 99.95% uptime through pragmatic reliability, observability and incident practices.

UBP - Union Bancaire Privée

Nov 2018 - Jul 2020

Internal Auditor - Geneva, Switzerland

- Led IT and banking security audits covering governance, risk, procedures, identity access management and GDPR-related controls.
- Prepared recommendations, discussed remediation with departments and leadership, and reported technology risk posture to senior management.
- Wrote audit reports in French and English and uncovered an application-role bug affecting 0.5% of bank users.

Pictet Asset Management

May 2021 - Dec 2021

Site Reliability Engineer, Contractor - Geneva, Switzerland

- Technically led implementation of an End User Computing rollout in a security-constrained asset management environment.
- Created EKS clusters, Helm charts and Terraform infrastructure for a common deployment structure.

Earlier experience

2009 - 2018

Technical Lead / Software Engineer - BCP, Glencore, Swissquote, Rolex, Axway

- Built banking, trade finance, commodity trading, identity management and enterprise systems; introduced Kubernetes, Docker, GitLab and CI/CD pipelines at BCP.

SELECTED PROOF POINTS

Enterprise AI adoption. Implemented Claude Enterprise at SCRYPT with Slack, Linear, email and calendar integrations; designed AI demos and reference architectures at Wonderful for RAG, voice AI, agent orchestration and regulated Swiss environments.

Regulated strategic delivery. Led Ripple / Metaco architecture, delivery and support practices for a regulated custody platform serving institutional clients, including HSBC Hong Kong.

Governance and executive steering. Owned FlowBank roadmap, budget, execution indicators, target architecture and AWS transition for a FINMA-regulated neobank; led UBP IT/security audits and remediation reporting.

EDUCATION

EIGSI La Rochelle

Master of Science, Computer Science
2003 - 2009

B9lab

Ethereum Blockstars, Blockchain - 2019

MongoDB University

Data Modeling / Warehousing and Database Administration

SKILLS

AI and delivery: enterprise AI adoption, LLMs, RAG, agentic workflows, Claude Enterprise, voice AI, technical scoping, delivery governance, adoption metrics

Stakeholders: C-level demos, executive committee advisory, institutional clients, Product, Field Engineering, security, compliance, operations, vendors

Platforms: AWS, Kubernetes, EKS, Terraform, Helm, CI/CD, DevSecOps, SRE, observability, APIs, architecture governance

Languages: French native/bilingual, English full professional, German limited working
