PROFESSIONAL SUMMARY

Technology and AI leader with CTO/CPO, Head of Engineering, Field CTO, Global Head of Technology and Director Software Engineering experience. Led organizations up to 50 people across regulated fintech, blockchain custody, cloud, data platforms, product delivery, governance and enterprise AI adoption. Strong fit for Bitcoin Suisse's AI Strategy & Product Lead mandate: define AI roadmap, identify measurable use cases, translate business needs into product specifications, govern adoption and connect AI capability to regulated crypto financial services.

CORE COMPETENCIES

AI roadmap AI product ownership Business analysis Backlog prioritization AI adoption LLMs / RAG / agents
KPI and ROI framing Regulated fintech Blockchain custody Governance and compliance Stakeholder alignment
Agile delivery

WORK EXPERIENCE

SCRYPT

Nov 2025 - Dec 2025

Head of Engineering - Zurich, Switzerland

- Led engineering strategy and operations during a focused transformation mandate.
- Defined and delivered the complete product and engineering roadmap.
- Drove company-wide AI adoption by implementing Claude Enterprise integrated through Slack with Linear, email and calendars.
- Created an always-on AI agent for executive and cross-functional work across technology, sales and marketing.
- Introduced Linear as the company-wide project management platform to improve structure, transparency and prioritization.
- Coached teams on AI-assisted engineering practices and practical workflow automation.

Ripple / Metaco

Sep 2023 - Oct 2025

Director Software Engineering - Geneva, Switzerland

- Led up to 50 professionals across Geneva and San Francisco developing a regulated blockchain custody platform for institutional financial clients.
- Maintained close relationships with key institutional clients to support specific use cases and delivery outcomes, including the HSBC Hong Kong implementation.
- Partnered with leadership, Product, Field Engineering and clients to shape technical and organizational strategy.
- Defined and drove architecture across multiple products and services, ensuring coherence, maintainability, security, scalability and operational excellence.
- Established practices for monitoring, QA, release management, testing strategy, process automation, technical debt control and L3 support.
- Achieved 90-96% team satisfaction through structured coaching, transparent ownership and squad autonomy.

Wonderful

Jan 2026 - Mar 2026

Field CTO - Zurich, Switzerland

- Drove client delivery and presales engagements for an enterprise AI platform with Swiss enterprise prospects, including financial services and regulated organizations.
- Led technical demonstrations of AI agent workflows, RAG, voice AI, automation pipelines and integration patterns for C-level and technical audiences.
- Translated AI platform capabilities into business value, adoption plans and measurable use cases.

Bazzile Technology SA

Aug 2020 - Present

Chief Product & Technology Officer, Partner - Geneva, Switzerland

- Lead product and technology for a real estate mobile application business, covering product strategy, architecture, backend, cloud, mobile delivery and AI-enabled product work.

- Built the first production version end-to-end with Elixir/Phoenix, PostgreSQL, APIs, mobile delivery and production infrastructure.
- Designed and industrialized a voice AI agent for real estate search using generative AI models and agent orchestration.
- Operated a Swiss-hosted production platform with 99.95% uptime through pragmatic reliability, observability and incident practices.

FlowBank

Aug 2022 - Aug 2023

Global Head of Technology, Executive Director - Geneva, Switzerland

- Led the full technology department of approximately 40 people for a FINMA-regulated neobank across software engineering, data, infrastructure, service delivery and outsourced providers.
- Prepared and owned the technology roadmap, annual budget, target architecture and execution indicators for the Executive Committee.
- Created a real-time data platform connecting trading, compliance, finance, marketing and quantitative teams.
- Initiated core projects including CRM and Core Banking and led the transition from on-premise infrastructure to AWS.
- Managed vendor renewals, external service providers and capacity trade-offs across regulatory, operational and business priorities.

UBP - Union Bancaire Privée

Nov 2018 - Jul 2020

Internal Auditor - Geneva, Switzerland

- Led IT and banking security audits covering governance, risk, procedures, identity access management and GDPR-related controls.
- Reported technology risk posture, control gaps and remediation plans to senior management in French and English.
- Uncovered an application-role bug affecting 0.5% of bank users during an identity access management audit.

Earlier engineering and finance technology roles

2009 - 2021

Pictet, BCP, Glencore, Swissquote, Rolex, Axway - Switzerland / France

- Built and led software delivery across cloud infrastructure, commodity trade finance, commodity trading, Forex, identity management, internal enterprise applications and banking systems.
- Used Java, Spring Boot, Angular, Scala, Node.js, Python, Kubernetes, Docker, GitLab, CI/CD, EKS, Helm, Terraform, LDAP and Oracle Identity Manager.
- Captured user needs, wrote business and technical specifications, introduced TDD/Scrum methods and led distributed engineering teams.

SELECTED PROJECTS

Enterprise AI Operating System. Implemented Claude Enterprise at SCRYPT with Slack, Linear, email and calendar integrations, creating an always-on assistant for executive and cross-functional workflows.

Blockchain Custody Engineering Organization. Led engineering for Ripple / Metaco's regulated custody platform, scaling teams across Geneva and San Francisco while partnering with Product, Field Engineering and institutional clients.

Digital Bank Technology Transformation. Led FlowBank technology through target architecture, AWS migration, DevSecOps culture, CRM, Core Banking, annual budget and data-driven service enablement.

EDUCATION

EIGSI La Rochelle

Master of Science, Computer Science
2003 - 2009

B9lab

Ethereum Blockstars, Blockchain - 2019

MongoDB University

Data Modeling / Warehousing and Database Administration

SKILLS

AI and product: AI roadmap, LLMs, RAG, agents, Claude Enterprise, product strategy, requirements, KPIs, Agile delivery, Linear

Fintech and crypto: blockchain custody, core banking, regulated systems, IT audit, IAM, GDPR, risk and governance

Platforms: AWS, Kubernetes, EKS, Terraform, Helm, CI/CD, DevSecOps, SRE, monitoring, PostgreSQL

Languages: French native/bilingual, English full professional, German limited working
