IT STRATEGY & GOVERNANCE · ENTERPRISE SYSTEMS & INFRASTRUCTURE · INTERNATIONAL OPERATIONS

Technology executive with 15+ years leading IT organisations in international, regulated environments — from banking and fintech to commodity trading. Track record directing global teams of 30–50 across infrastructure, enterprise applications and cybersecurity. Combines hands-on technical depth with executive-level strategic dialogue, bridging business leadership and technology execution to deliver pragmatic, value-driven solutions.

PROFESSIONAL EXPERIENCE

Ripple

Sep 2023 – Oct 2025

Director of Software Engineering — Blockchain Custody Platform

Led a global IT organisation of up to 50 engineers in Geneva building a regulated custody solution for institutional financial clients. Drove hiring, shaped people management practices, and provided career coaching to grow a high-performing, engaged engineering culture.

- Defined and executed the technology roadmap aligned with business transformation objectives, presenting strategy and risk posture to senior leadership.
- Restructured engineering into autonomous squads, improving cross-functional delivery velocity and breaking organisational silos.
- Oversaw infrastructure reliability, cybersecurity posture and platform scalability for mission-critical systems.
- Maintained close relationships with key institutional clients to support specific use-case delivery and ensure alignment with their roadmap needs.
- Achieved 90–96% team satisfaction scores through structured coaching, transparent OKRs and squad-based autonomy.

FlowBank SA

Aug 2022 – Aug 2023

Global Head of Technology — Executive Director

- Led the full IT department (~40 people) covering infrastructure, enterprise applications, cybersecurity and development — transforming the bank into a fully digital institution.
- Prepared the technology roadmap and budget for the Executive Committee; previously joined as Strategic Technology Consultant advising the ExCo on technology direction.
- Drove IT governance across vendor management, service delivery and enterprise platform selection — initiating CRM and Core Banking programmes.
- Designed a real-time data platform connecting trading systems to compliance, marketing and finance — enabling live data flows across all business functions.
- Initiated the transition from on-premise to AWS; created the target architecture enabling data-driven services at scale.
- Defined the development strategy and brought a DevOps culture to the department.

Bazzile Technology SA

Aug 2020 – Present

CTO / CPO — Digital Product Owner & Technology Partner

- Owned the full technology stack end-to-end — cloud infrastructure, backend services and mobile application — achieving more than 99.95% platform uptime.
- Managed vendor relationships and external partners for infrastructure and specialised services.
- Planned the cybersecurity risk assessment and mitigation strategy.
- Led a team of engineers and coordinated with business stakeholders to translate requirements into prioritised delivery cycles.

Internal Auditor — IT & Security

- Headed IT and security audits across the bank's infrastructure and application landscape, ensuring compliance with GDPR and regulatory frameworks.
- Reported directly to top management on technology risk, governance posture and strategic remediation actions.
- Uncovered a critical bug affecting 0.5% of bank users through a thorough identity access management audit.
- Led a team of 2 security specialists performing security assessments across the bank's digital estate.
