REGULATED BANKING IT · CLOUD, DATA & APPLIED AI · GOVERNANCE, AUDIT & VENDOR OVERSIGHT

IT leader with 15+ years in regulated financial services, including 7 years directing IT departments with ExCo reporting. Owns the full IT function — strategy, applications, data, infrastructure, outsourced services — alongside hands-on cloud, audit and applied-AI experience.

PROFESSIONAL EXPERIENCE

Ripple

Sep 2023 – Oct 2025

Director of Software Engineering — Blockchain Custody Platform

- Led an organisation of up to 50 engineers across Geneva and San Francisco delivering a digital asset custody platform for institutional financial clients, including the implementation for HSBC Hong Kong.
- Owned the technology roadmap, hiring & levelling and squad-based organisation; sustained 90–96% team-satisfaction scores.
- Drove pragmatic AI adoption across the engineering organisation — rolled out Claude Code and LLM-based developer copilots with proper AI-assisted development practices, and embedded AI agent workflows into day-to-day engineering operations; balanced velocity gains with the regulatory and operational constraints of an institutional custody platform.
- Sponsored applied-AI initiatives spanning AI-assisted operations, observability triage and internal automation; reported regularly to senior leadership and external partners on delivery, service levels and risk posture.

FlowBank SA

Aug 2022 – Aug 2023

Global Head of Technology — Executive Director

- Led the whole IT department (~40 people) of a FINMA-regulated digital bank covering classical banking through to crypto-enabled products.
- Prepared the technology roadmap and annual budget presented to the Executive Committee; initiated and led the Core Banking and CRM programmes, coordinating internal teams, integrators and external service providers.
- Architected a real-time data platform feeding compliance, finance and marketing; initiated the AWS migration and DevSecOps culture.

Union Bancaire Privée

Nov 2018 – Jul 2020

Internal Auditor — IT & Security

- Headed routine IT and banking-security audits across the bank's technology landscape (GDPR and internal standards); reported directly to top management on risks and strategic actions.
- Uncovered a critical IAM bug affecting 0.5% of bank users through a thorough identity & access management audit.
- Led a team of two security specialists; built data-analytics tooling (R, Tableau) to widen audit coverage.

OTHER EXPERIENCES

Wonderful Field CTO — Enterprise AI Platform

Jan 2026 – Mar 2026

Script Head of Engineering
