ENGINEERING LEADERSHIP · ORG SCALING · AI-INTENSIVE PRODUCT DELIVERY

Engineering executive with 15+ years building and scaling high-performance engineering organisations in fast-paced, product-driven environments. Proven ability to lead 50+ engineers, coach engineering managers and tech leads, and turn ambitious product roadmaps into predictable, high-quality delivery. Deep hands-on background in modern software architecture, AI-augmented workflows, and operational excellence — combined with strong CTO partnership and cross-functional leadership.

PROFESSIONAL EXPERIENCE

Ripple

Sep 2023 – Oct 2025

Director of Software Engineering — Ripple Custody

Led a distributed engineering organisation of up to 50 engineers across Geneva and San Francisco, building a regulated institutional-grade custody platform. Owned delivery execution, engineering culture and org design for a mission-critical B2B product in a fast-growing, high-uncertainty environment.

- Scaled the organisation from 40 to 50 engineers — defined hiring strategy end-to-end from job scoping and levelling to structured interviews.
- Restructured engineering into autonomous squads with clear domain ownership, breaking silos and increasing cross-functional delivery velocity.
- Built and coached a layer of engineering managers and tech leads, establishing lightweight processes that scaled without bureaucracy.
- Partnered closely with Product and the CTO to translate business goals into an executable technical roadmap, managing trade-offs transparently and identifying risks early.
- Achieved 96% team satisfaction through structured coaching, transparent OKRs and a culture of ownership — demonstrating sustainable scaling.

FlowBank SA

Aug 2022 – Aug 2023

Global Head of Technology — Executive Director

- Led the full IT department (~40 people) covering engineering, infrastructure and security — transforming the bank into a fully digital institution.
- Prepared the technology roadmap and budget for the Executive Committee; previously joined as Strategic Technology Consultant advising on technology direction.
- Initiated and led new core product programmes including CRM and Core Banking, shaping the digital product portfolio from the ground up.
- Designed a real-time data platform connecting trading systems to compliance, marketing and finance — enabling live data flows across all business functions.
- Initiated the transition from on-premise to AWS; created the target architecture enabling data-driven services at scale.
- Defined the development strategy and brought a DevOps culture to the department.

CTO / CPO – Partner

Built a mobile platform for the Real Estate sector from zero to production. Owned product roadmap, technical architecture and team delivery following Agile/Kanban and TDD principles.

- Architected and delivered the full platform – cloud infrastructure, backend services and mobile app – using Elixir and Flutter.
- Drove reliability engineering practices to achieve more than 99.95% platform uptime.
- Owned the product roadmap end-to-end – conducted client interviews to surface feature opportunities and translated insights into prioritised delivery cycles.
- Managed a team of three software engineers and one technical client success officer.

OTHER EXPERIENCES

Wonderful	Field CTO	Jan 2026 – Mar 2026
Scrypt	Head of Engineering	Nov 2025 – Dec 2025
Union Bancaire Privée	Internal Auditor – IT Security	Nov 2018 – Jul 2020
Banque de Commerce et de Placements	Software Engineer	Nov 2017 – Oct 2018
SIX Swiss Exchange	Scala Developer	Feb 2017 – Oct 2017
Glencore	Software Engineer	Aug 2016 – Jan 2017
Swissquote	Technical Lead	Jan 2016 – Jul 2016
Rolex SA	Software Engineer	Jan 2011 – Dec 2015
Axway	Software Engineer	Jan 2009 – Dec 2010
