ENGINEERING LEADERSHIP · STARTUP SCALING · AI & DATA PRODUCTS

Engineering executive with 15+ years scaling technology organisations. Track record leading 50+ engineers as a manager of managers across globally distributed teams. Hands-on background spanning data platforms, cloud infrastructure and cross-platform products, with a product-centric mindset.

PROFESSIONAL EXPERIENCE

Bazzile Technology SA

Aug 2020 – Present

CTO / CPO — Partner

Co-founded a technology startup from zero to production — defined the product vision, designed the architecture, and shipped a cross-platform product to market.

- Built a data-driven product integrating real-time geospatial and market data, with pipeline infrastructure powering intelligent recommendations for end users.
- Achieved 99.95% uptime through reliability engineering, observability and incident management practices from day one.
- Led product discovery end-to-end — user research, prioritised roadmap, and iterative delivery with a relentless focus on customer problems.

Ripple

Sep 2023 – Oct 2025

Director of Software Engineering — Ripple Custody

Led a globally distributed organisation of up to 50 engineers across Geneva and San Francisco, building a complex, data-intensive custody platform at a high-growth, VC-backed company.

- Scaled from 40 to 50 engineers — defined hiring strategy end-to-end, continuously raising the bar on talent density and diversity.
- Manager of managers: restructured engineering into autonomous cross-functional squads, increasing delivery velocity and team autonomy.
- Partnered with Product, Design and Field Engineers to translate customer problems into an executable roadmap, balancing velocity with scalability.
- Achieved 96% team satisfaction through coaching, transparent OKRs and a culture of ownership — across time zones and remote-first practices.

FlowBank SA

Aug 2022 – Aug 2023

Global Head of Technology — Executive Director

- Led the entire IT department (~40 people) at a regulated digital bank, delivering a customer-facing platform spanning web and mobile applications.
- Defined IT strategy and annual technology roadmap presented to the Executive Committee; shaped the digital product portfolio.
- Architected a real-time event-driven data platform connecting trading systems to compliance, marketing and finance.
