DIGITAL BANKING · WEALTH MANAGEMENT · EXECUTIVE LEADERSHIP

Product and technology executive with 15+ years delivering digital transformation in regulated financial environments. Track record as CPO/CTO owning full product lifecycle — from strategic roadmap to board reporting — across digital banking, portfolio management, CRM and compliance platforms. Equally strong in people leadership (teams up to 50) and stakeholder management with C-suite, legal, compliance and business divisions.

PROFESSIONAL EXPERIENCE

Ripple

Sep 2023 – Oct 2025

Director of Software Engineering — Blockchain Custody Platform

Led an organisation of up to 50 engineers in Geneva and San Francisco building a regulated blockchain custody solution for institutional financial clients. Drove hiring, shaped people management practices, and provided career coaching to grow a high-performing, engaged engineering culture.

- Defined and owned the hiring strategy for each role — from job scoping and levelling to interview design — scaling the organisation to 50 engineers.
- Restructured engineering into autonomous squads to break silos and improve cross-functional delivery velocity.
- Maintained close relationships with key institutional clients to support specific use-case delivery and ensure alignment with their roadmap needs.
- Managed the implementation of the digital asset custody platform for HSBC Hong Kong, aligning delivery with the client's regulatory and operational requirements.
- Achieved 90–96% team satisfaction scores through structured coaching, transparent OKRs and squad-based autonomy.
- Presented technology strategy, delivery progress and risk posture to senior leadership and external partners.

FlowBank SA

Aug 2022 – Aug 2023

Global Head of Technology — Executive Director

- Led the whole IT department (~40 people) to bring a viable vision transforming the bank into a fully digital institution — covering classical banking services through to crypto-enabled products.
- Prepared the technology roadmap and budget for the Executive Committee; previously joined as Strategic Technology Consultant (May–Jul 2022) advising the ExCo on technology direction.
- Initiated and led new core product programmes including CRM and Core Banking, shaping the bank's digital product portfolio from the ground up.
- Envisioned a real-time data platform connecting new trading systems to compliance, marketing and finance — enabling live data flows across the bank's core functions.
- Initiated the transition from on-premise to AWS; created the target architecture enabling the quantitative team to build data-driven services.
- Defined the development strategy and brought a DevOps culture to the department.

CTO / CPO – Digital Product Owner & Technology Partner

Planned and developed a mobile application for the Real Estate sector to attract new customers. Formulated and applied creative strategies ensuring smooth progression of operational activities. Led full-stack development from database to mobile following Agile/Kanban and Test-Driven Development principles.

- Owned the product roadmap end-to-end – conducted client interviews to surface new feature opportunities and translated insights into prioritised delivery cycles.
- Architected and delivered the full platform – from cloud infrastructure and backend services to mobile app – using Elixir and Flutter.
- Drove reliability engineering practices to achieve more than 99.95% platform uptime.
- Planned the cybersecurity risk assessment and mitigation strategy.
- Managed a team of three software engineers and one technical client success officer.

Union Bancaire Privée

Nov 2018 – Jul 2020

Internal Auditor

Headed and oversaw routine IT and banking security audits to eliminate potential risks and errors in adherence with GDPR compliance. Directly reported to top management to discuss current and future technical affairs and strategic actions. Leveraged data analytics tools (R, Tableau) to transform raw data into actionable insights for leadership.

- Developed technology tooling to increase audit team credibility and coverage.
- Played a key role in carrying out risk analysis and mission planning across the bank's IT landscape.
- Uncovered a critical bug affecting 0.5% of bank users in application roles through a thorough identity access management audit.
- Led a team of 2 security specialists performing security assessments across the bank's digital estate.
