IT STRATEGY · INFRASTRUCTURE & OPERATIONS · CYBERSECURITY · SOFTWARE ENGINEERING

Senior technology executive with 15+ years leading IT departments in regulated Swiss financial institutions. Proven track record overseeing full IT operations — infrastructure, networks, cloud, cybersecurity, and core banking systems — in FINMA-regulated environments. Former Global Head of Technology at a Swiss digital bank (~40 people), combining strategic IT governance with hands-on operational leadership. Deep understanding of banking compliance through direct audit experience at a major private bank. Equally comfortable presenting IT strategy to General Management and managing multi-site teams across geographies.

PROFESSIONAL EXPERIENCE

Ripple

Sep 2023 – Oct 2025

Director of Software Engineering — Blockchain Custody

Led an organisation of 50 engineers in Geneva building a regulated blockchain custody platform for institutional financial clients. Oversaw delivery, staffing, infrastructure tooling and vendor management across multiple squads.

- Managed delivery, staffing and technical operations across multiple squads, ensuring alignment with regulatory requirements and client expectations.
- Reported technology strategy, risk posture and delivery progress to senior leadership; maintained close relationships with institutional clients on technical delivery.
- Established structured OKR frameworks and team governance, achieving 90–96% satisfaction scores across the organisation.
- Managed vendor and partner relationships for infrastructure and security tooling in a highly regulated environment.

FlowBank SA

Aug 2022 – Aug 2023

Global Head of Technology — Executive Director

- Led the entire IT department (~40 people) across applications, infrastructure and support at a FINMA-regulated digital bank offering classical banking and crypto-enabled products.
- Defined the IT strategy, technology roadmap and annual budget; presented to the Executive Committee and Board for approval.
- Supervised infrastructure operations — on-premise servers, network, data center — and initiated the migration to AWS cloud, designing the target architecture.
- Ensured business continuity planning (BCP/DRP) and regulatory compliance with FINMA requirements across all technology systems.
- Managed vendor relationships and IT procurement for core banking, trading systems and third-party integrations.
- Introduced DevOps culture and modernised the development and deployment pipeline across the department.

Bazzile Technology SA

Aug 2020 – Present

EIGSI La Rochelle, 2009

CTO / CPO – Digital Platform Owner & Technology Partner

Planned, architected and operated the full technology stack for a mobile platform in the real estate sector – from cloud infrastructure and backend services to mobile app – owning reliability, security and delivery end-to-end.

- Architected and delivered the full platform – cloud infrastructure, backend services and mobile app – using Elixir and Flutter.
- Drove reliability engineering practices to achieve more than 99.95% platform uptime.
- Planned the cybersecurity risk assessment and mitigation strategy.
- Managed a team of three software engineers and one technical client success officer.

Union Bancaire Privée

Nov 2018 – Jul 2020

Internal Auditor – IT & Security

Headed and oversaw IT and banking security audits to eliminate potential risks in adherence with GDPR and FINMA compliance. Reported directly to top management on technical risk posture and remediation priorities.

- Conducted IT and banking security audits across the bank's technology estate, ensuring adherence to GDPR and internal compliance frameworks.
- Uncovered a critical identity access management vulnerability affecting bank users through a thorough IAM audit.
- Led a team of 2 security specialists performing cybersecurity assessments across the bank's digital estate.
- Built data analytics tooling (R, Tableau) to increase audit coverage and credibility with stakeholders.
