

TECHNOLOGY TRANSFORMATION · DATA & AI · BANKING & WEALTH MANAGEMENT · BUSINESS DEVELOPMENT

Technology leader with 15+ years in the Financial Services sector, combining hands-on project delivery with business development and client relationship management. Proven track record leading technology transformations at Swiss banks and regulated fintech firms — from core banking modernisation and cloud migration to AI-powered automation. Experienced managing organisations of up to 50 professionals and building trusted relationships with C-level stakeholders at local financial institutions. Strong local network across Geneva's banking and wealth management ecosystem.

PROFESSIONAL EXPERIENCE

Wonderful

Jan 2026 – Mar 2026

Field CTO — Enterprise AI Platform

- Drove client acquisition and presales for an enterprise AI platform, translating complex AI and automation capabilities into clear business value for Swiss financial and enterprise prospects.
- Led technical demonstrations of AI agent workflows, automation pipelines and integration patterns to C-level and technical audiences at banks and asset managers.
- Leveraged a strong professional network across Romandie to open strategic AI adoption discussions with key financial institutions.
- Scoped custom AI agent deployments and integration architectures, bridging client needs with platform capabilities.

Ripple

Sep 2023 – Oct 2025

Director of Software Engineering — Institutional Custody Platform

- Led an international engineering organisation of up to 50 engineers across Geneva and San Francisco, building a regulated institutional custody platform for banks and asset managers.
- Scaled the organisation from 40 to 50 engineers — defined hiring strategy from job scoping and levelling to structured interviews, continuously raising the bar on talent density.
 - Restructured engineering into autonomous squads with clear domain ownership, improving cross-functional delivery velocity and reducing coordination overhead.
 - Partnered with Product and Field Engineers to translate institutional client requirements into an executable technical roadmap, balancing feature velocity with platform reliability and regulatory compliance.
 - Established on-call rotations, incident management processes, monitoring and observability standards — achieving 96% team satisfaction through structured coaching and transparent OKRs.

FlowBank SA

Aug 2022 – Aug 2023

Global Head of Technology — Executive Director

- Led the IT department (~40 people) at a FINMA-regulated digital bank, delivering a high-traffic transactional platform for trading, banking and crypto-enabled products.
- Architected a real-time event-driven data platform with PostgreSQL and Redis, connecting trading systems to compliance, marketing and finance functions.
- Initiated the cloud migration to AWS — designed scalable target architecture and introduced DevOps culture, CI/CD pipelines and release cadence with quality gates.
- Defined the technology roadmap and annual IT strategy presented to the Executive Committee; managed vendor relationships for core banking, trading systems and third-party integrations.

CONSULTING & BD

- Presales
- Client advisory
- Solution scoping
- Technical demos
- Local network

DATA & AI

- AI agents
- Automation
- Data platforms
- SQL

Union Bancaire Privée

Nov 2018 – Jul 2020

Internal Auditor – IT & Security

- Conducted IT and banking security audits across the technology estate of a major Swiss private bank, ensuring adherence to GDPR and FINMA compliance frameworks.
- Uncovered a critical identity access management vulnerability through a thorough IAM audit; reported risk posture and remediation priorities to top management.
- Built data analytics tooling (R, Tableau, SQL) to increase audit coverage and deliver data-driven insights to stakeholders.
