

Senior technology executive with 15+ years leading engineering organisations in regulated financial environments. Hands-on builder of enterprise AI adoption programmes — running open source LLMs, designing agentic systems, and translating AI strategy into measurable business outcomes. Proven communicator to C-suite and boards; equally at home writing production code and presenting to regulators.

PROFESSIONAL EXPERIENCE

Wonderful

Jan 2026 – Mar 2026

Field CTO — Enterprise AI Platform

- Responsible for driving client delivery and leading presales engagements with enterprise prospects across Switzerland.
- Lead technical demonstrations and presales for Swiss enterprise clients, translating complex AI platform capabilities into clear business value.
- Leverage a strong professional network across Romandie to open strategic discussions with key Swiss companies.
- Bridge the gap between client needs and product capabilities, ensuring successful delivery outcomes.

Script

Nov 2025 – Dec 2025

Head of Engineering

- Led engineering strategy and operations, delivering high-impact organisational and technical changes within a focused tenure.
- Defined and delivered the complete product and engineering roadmap; introduced Linear as the company-wide project management platform, bringing structure and visibility across all teams.
- Reorganised the tech organisation around delivery and support squads (L3), improving focus and accountability.
- Drove company-wide AI adoption by implementing Claude Enterprise, integrated via Slack with Linear, email and calendars — creating an always-on AI agent that helps the executive committee and all employees navigate cross-functional dependencies across tech, sales and marketing.

Ripple

Sep 2023 – Oct 2025

Director of Software Engineering — Blockchain Custody

- Led an organisation of 50 engineers across multiple squads delivering a regulated blockchain custody platform for financial institutions.
- Introduced AI-assisted development practices (code review, test generation, documentation) that accelerated sprint velocity by ~25%.
- Reported technology strategy and risk posture to senior leadership; maintained close relationships with institutional clients on technical delivery.
- Achieved 90–96% team satisfaction scores through structured coaching, transparent OKRs and squad-based autonomy model.

AI & DATA

LLM & GENAI

- Claude / Anthropic API
- Open source LLMs
- Agentic systems
- RAG pipelines
- Prompt engineering
- AI governance

PLATFORM

- Kubernetes
- Docker
- Apache Kafka
- Data architecture

CLOUD

- AWS
- GCP
- Terraform
- Docker

ENGINEERING

- Go
- Elixir
- Rust
- Python
- Scala
- TypeScript

LEADERSHIP

- Team scaling (40+)
- OKR frameworks
- Executive
- Board reporting
- Vendor management
- Presales & RFP

DOMAINS

- Financial services
- Digital banking
- Blockchain custody
- FINMA compliance
- GDPR
- Risk management

LANGUAGES

- French
- English
- Native
- C1

Global Head of Technology — Executive Director

- Led the whole IT department (~40 people) to transform the bank into a fully digital institution — from classical banking services to crypto-enabled products.
- Prepared the technology roadmap and budget for the Executive Committee; previously joined as Strategic Technology Consultant (May–Jul 2022) advising on technology direction.
- Envisioned a real-time data platform connecting new trading systems to compliance, marketing and finance — enabling live data flows across the bank's core functions.
- Initiated the transition from on-premise to AWS; created the target architecture enabling the quantitative team to build data-driven services.
