

Engineering and product executive with 15+ years building and scaling high-performance engineering organisations in fast-paced, product-driven environments. Proven ability to lead 50+ engineers across multiple geographies, own technical strategy and architectural roadmaps, and drive high-velocity delivery of B2B SaaS and on-premise platforms. Deep hands-on background in software quality, CI/CD, DevOps culture, and developer experience — combined with strong C-suite partnership and cross-functional leadership.

PROFESSIONAL EXPERIENCE

Ripple

Sep 2023 – Oct 2025

Director of Software Engineering — Ripple Custody

Led an international engineering organisation of up to 50 engineers across Geneva and San Francisco, building a regulated institutional-grade custody platform. Owned the technical roadmap, delivery execution, and engineering culture for a mission-critical B2B product serving top-tier financial institutions.

- Defined and executed the hiring strategy end-to-end — from job scoping and levelling to structured interviews — scaling the organisation from 40 to 50 engineers.
- Restructured engineering into autonomous squads with clear domain ownership, breaking silos and increasing cross-functional delivery velocity.
- Partnered closely with Product and Field Engineers to translate business goals into an executable technical roadmap, balancing feature velocity with platform reliability and security.
- Maintained direct relationships with strategic institutional clients to align product capabilities with their integration needs and security requirements.
- Achieved 96% team satisfaction scores through structured coaching, transparent OKRs and a culture of ownership.

FlowBank SA

Aug 2022 – Aug 2023

Global Head of Technology — Executive Director

- Led the whole IT department (~40 people) to bring a viable vision transforming the bank into a fully digital institution — covering classical banking services through to crypto-enabled products.
- Prepared the technology roadmap and budget for the Executive Committee; previously joined as Strategic Technology Consultant (May–Jul 2022) advising the ExCo on technology direction.
- Initiated and led new core product programmes including CRM and Core Banking, shaping the bank's digital product portfolio from the ground up.
- Envisioned a real-time data platform connecting new trading systems to compliance, marketing and finance — enabling live data flows across the bank's core functions.
- Initiated the transition from on-premise to AWS; created the target architecture enabling the quantitative team to build data-driven services.
- Defined the development strategy and brought a DevOps culture to the department.

ENGINEERING

PLATFORM & DELIVERY

- SaaS & On-Prem
- CI/CD pipelines
- DevOps culture
- Release management
- SRE & uptime

QUALITY & SECURITY

- Code quality
- Static analysis
- Testing strategy
- Security audits

LEADERSHIP

- Team scaling (50+)
- Multi-geo teams
- Squad model
- Coaching & mentoring
- C-suite partnership

METRICS & PROCESS

- DORA metrics
- OKRs
- Roadmap planning
- Budget ownership

TECHNOLOGY

- AWS
- Architecture
- AI agents
- Blockchain

LANGUAGES

- FrenchNative
- EnglishC1
- GermanA2

EDUCATION

- MSc Informatics & Networking
- EIGSI La Rochelle, 2009
- Blockchain Technology
- B9lab Ethereum
- Blockstars, 2019

CTO / CPO - Partner

- Planned and developed a mobile application for the Real Estate sector to attract new customers.
Formulated and applied creative strategies ensuring smooth progression of operational activities.
Led full-stack development from database to mobile following TDD principles.
- Owned the product roadmap end-to-end — conducted client interviews to surface new feature opportunities and translated insights into prioritised delivery cycles.
 - Architected and delivered the full platform — from cloud infrastructure and backend services to mobile app — using Elixir and Flutter.
 - Drove reliability engineering practices to achieve more than 99.95% platform uptime.
 - Planned the cybersecurity risk assessment and mitigation strategy.
 - Managed a team of three software engineers and one technical client success officer.
