PROFESSIONAL SUMMARY

Technology and engineering executive based in Geneva with CTO/CPO, Global Head of Technology, Head of Engineering, Director Software Engineering and Field CTO experience. Led organizations up to 50 people across digital assets, blockchain custody, fintech, banking, cloud, data platforms, DevOps and enterprise AI. Strong fit for Sandmark's Technology Director mandate: own the technical roadmap, team structure, product delivery, vendor model, cloud infrastructure, budget accountability and data-platform execution for a Geneva-based digital-assets media and data company.

CORE COMPETENCIES

Technology roadmap Digital assets Data products Market data platforms Cloud infrastructure DevOps / CI/CD
Vendor management Engineering budget Team structuring Product delivery API design Editorial / commercial translation

WORK EXPERIENCE

FlowBank

Aug 2022 - Aug 2023

Global Head of Technology, Executive Director - Geneva, Switzerland

- Led the full technology department of approximately 40 people for a FINMA-regulated neobank across software engineering, data, infrastructure, service delivery and outsourced providers.
- Prepared and owned the technology roadmap, annual budget and execution indicators for the Executive Committee.
- Initiated and led the transition from on-premise infrastructure to AWS, aligning cloud migration, operating model and delivery priorities.
- Created target architecture and a real-time data platform connecting trading, compliance, finance, marketing and quantitative teams.
- Managed vendor renewals, external service providers and capacity trade-offs across regulatory, operational and business priorities.
- Defined development strategy, brought DevSecOps culture to the department and initiated core projects including CRM and Core Banking.

Ripple / Metaco

Sep 2023 - Oct 2025

Director Software Engineering - Geneva, Switzerland

- Led up to 50 professionals across Geneva and San Francisco developing a regulated blockchain custody platform for institutional financial clients.
- Managed managers, tech leads and engineering teams; supported career growth, hiring, levelling, coaching and team effectiveness.
- Maintained close relationships with institutional clients to support use cases and delivery outcomes, including the HSBC Hong Kong implementation.
- Launched and organized multiple teams into squads to break silos, improve delivery focus and clarify ownership.
- Created a dedicated support and L3 squad to absorb client incidents and protect roadmap delivery.
- Drove architecture across products and services, ensuring coherence, maintainability, security, scalability and operational excellence.
- Established practices for quality, monitoring, reviews, automation, technical debt control, testing, QA, release management and L3 support.
- Achieved 90-96% team satisfaction through structured coaching, transparent ownership and squad autonomy.

Bazzile Technology SA

Aug 2020 - Present

Chief Product & Technology Officer, Partner - Geneva, Switzerland

- Lead product and technology for a mobile application business, covering product strategy, architecture, backend, cloud, mobile delivery and AI-enabled product work.
- Built the first production version end-to-end with Elixir/Phoenix, PostgreSQL, APIs, mobile delivery and production infrastructure.
- Led a small multidisciplinary team across engineering, product and technical success, including hiring and coaching software engineers.
- Operated a Swiss-hosted production platform with 99.95% uptime through pragmatic reliability, observability and incident practices.
- Managed software engineers and external providers to meet business needs quickly.

SCRYPT

Nov 2025 - Dec 2025

Head of Engineering - Zurich, Switzerland

- Led engineering strategy and operations during a focused transformation mandate.
- Defined and delivered the complete product and engineering roadmap.
- Introduced Linear as the company-wide project management platform to improve structure, visibility and delivery tracking.
- Reorganized technology teams around delivery and L3 support squads, improving ownership and accountability.
- Drove company-wide AI adoption with Claude Enterprise integrated through Slack with Linear, email and calendars.

Wonderful

Jan 2026 - Mar 2026

Field CTO - Zurich, Switzerland

- Drove client delivery and presales engagements for an enterprise AI platform with Swiss enterprise prospects, including financial services and regulated organizations.
- Translated complex AI platform capabilities into business value, adoption plans and measurable use cases for C-level and technical audiences.

Earlier engineering, platform and audit roles

2009 - 2021

Pictet, UBP, BCP, SIX, Glencore, Swissquote, Rolex, Axway - Switzerland / France

- Built software and platforms across asset management, banking audits, commodity trade finance, structured products, commodity trading, Forex, identity management and enterprise applications.
- Created EKS clusters, Helm charts and Terraform infrastructure at Pictet; introduced Kubernetes, Docker, GitLab and CI/CD pipelines at BCP.
- Led IT/security audits at UBP covering governance, risk, IAM and GDPR controls, including one application-role bug affecting 0.5% of users.

SELECTED PROJECTS

Digital Bank Technology Transformation. Led FlowBank technology through target architecture, AWS migration, DevSecOps culture, CRM, Core Banking, annual budget and real-time data-platform work.

Blockchain Custody Engineering Organization. Led engineering for Ripple / Metaco's regulated custody platform, scaling teams across Geneva and San Francisco while supporting institutional clients.

Cloud and DevOps Platform Work. Built EKS clusters, Helm deployment structures and Terraform infrastructure at Pictet; established Kubernetes, Docker, GitLab and CI/CD pipelines for trade finance tooling at BCP.

EDUCATION

EIGSI La Rochelle

Master of Science, Computer Science
2003 - 2009

B9lab

Ethereum Blockstars, Blockchain - 2019

MongoDB University

Data Modeling / Warehousing and Database Administration

SKILLS

Leadership: Technology Director, CTO/CPO, Director Software Engineering, Head of Engineering, manager-of-managers, hiring, coaching, team scaling

Delivery: roadmap, budget, vendors, capacity, risk management, release quality, QA, L3 support, technical debt, executive reporting

Technology: digital assets, data platforms, market systems, AWS, Kubernetes, EKS, Terraform, Helm, CI/CD, DevSecOps, SRE, monitoring, Elixir, Java, Scala, Python

Languages: French native/bilingual, English full professional, German limited working
