

Thibault Fouache

Field CTO / Enterprise Solutions Architect - AWS, GenAI, regulated cloud and customer architecture

Geneva, Switzerland +41 76 585 71 89 thibault.fouache@pm.me linkedin.com/in/thibault-gva github.com/RoyalMist
Swiss work permit C

PROFESSIONAL SUMMARY

Field CTO and technology executive with experience advising enterprise customers, leading cloud transformation, and building regulated platforms across fintech, banking, blockchain custody, data, DevSecOps and enterprise AI. Led organizations up to 50 people while staying technically close to architecture, integration, AWS, Kubernetes, EKS, Terraform, CI/CD, observability, support and security. Strong fit for AWS Enterprise Solutions Architect work: trusted customer advisor, executive workshops, reference architectures, GenAI adoption, sensitive-data constraints and pragmatic cloud modernization.

CORE COMPETENCIES

Enterprise solutions architecture Customer workshops Executive advisory AWS cloud transformation
GenAI / RAG / agents Application integration Kubernetes / EKS Terraform / Helm / IaC CI/CD / DevSecOps
Observability / SRE Security and audit readiness Retail and supply-chain adjacency

WORK EXPERIENCE

Wonderful

Jan 2026 - Mar 2026

Field CTO - Zurich, Switzerland

- Drove client delivery and presales engagements for an enterprise AI platform with Swiss enterprise prospects, including financial services and regulated organizations.
- Led technical demonstrations of AI agent workflows, RAG, voice AI, automation pipelines and integration patterns for C-level and technical audiences.
- Translated complex AI platform capabilities into business value, adoption plans, architecture options and measurable use cases.
- Bridged client needs and product capabilities to improve delivery outcomes and reduce uncertainty in enterprise AI adoption.

FlowBank

Aug 2022 - Aug 2023

Global Head of Technology, Executive Director - Geneva, Switzerland

- Led the full technology department of approximately 40 people for a FINMA-regulated neobank across engineering, data, infrastructure, service delivery and outsourced providers.
- Initiated and led the transition from on-premise infrastructure to AWS, defining target architecture and modernization priorities under regulatory constraints.
- Prepared and owned technology roadmap, annual budget, execution indicators and architecture direction for the Executive Committee.
- Created a real-time data platform connecting trading, compliance, finance, marketing and quantitative teams.
- Managed vendor renewals, external service providers and capacity trade-offs across regulatory, operational and business priorities.

Ripple / Metaco

Sep 2023 - Oct 2025

Director Software Engineering - Geneva, Switzerland

- Led up to 50 professionals across Geneva and San Francisco developing a regulated blockchain custody platform for institutional financial clients.
- Maintained close relationships with key institutional clients to support specific use cases and delivery outcomes, including the HSBC Hong Kong implementation.
- Defined and drove architecture across multiple products and services, ensuring coherence, maintainability, security, scalability and operational excellence.
- Established practices for monitoring, code and design reviews, QA, release management, process automation, technical debt control, testing strategy and L3 support.
- Partnered with leadership, Product, Field Engineering and clients to shape technical and organizational strategy.

SCRYPT

Nov 2025 - Dec 2025

Head of Engineering - Zurich, Switzerland

- Led engineering strategy and operations during a focused transformation mandate.

- Drove company-wide AI adoption by implementing Claude Enterprise integrated through Slack with Linear, email and calendars.
- Created an always-on AI assistant for executive and cross-functional work across technology, sales and marketing.
- Coached teams on AI-assisted engineering practices, workflow automation and practical operating discipline.

Bazzile Technology SA

Aug 2020 - Present

Chief Product & Technology Officer, Partner - Geneva, Switzerland

- Lead product and technology for a real estate mobile application business, covering product strategy, architecture, backend, cloud, APIs, mobile delivery and AI-enabled product work.
- Built the first production version end-to-end with Elixir/Phoenix, PostgreSQL, APIs, mobile delivery and production infrastructure.
- Designed and industrialized a voice AI agent for real estate search using generative AI models and agent orchestration.
- Operated a Swiss-hosted production platform with 99.95% uptime through pragmatic reliability, observability and incident practices.

Pictet Asset Management

May 2021 - Dec 2021

Site Reliability Engineer, Contractor - Geneva, Switzerland

- Technically led implementation of an End User Computing rollout in a security-constrained asset management environment.
- Created EKS clusters, Helm charts and Terraform infrastructure for a common deployment structure.
- Led two Site Reliability Engineers and supported internal enablement through React training.

UBP - Union Bancaire Privée

Nov 2018 - Jul 2020

Internal Auditor - Geneva, Switzerland

- Led IT and banking security audits covering governance, risk, procedures, identity access management and GDPR-related controls.
- Reported technology risk posture, control gaps and remediation plans to senior management in French and English.
- Uncovered an application-role bug affecting 0.5% of bank users during an identity access management audit.

BCP / Glencore / Swissquote / Rolex / Axway

2009 - 2018

Technical Lead / Software Engineer - Switzerland / France

- Built software across commodity trade finance, commodity trading, Forex, identity management, internal enterprise applications and banking systems.
- Introduced Kubernetes, Docker, GitLab and CI/CD pipelines at BCP; contributed to Glencore commodity trading systems with Java/Spring Boot and Angular.
- Created a software factory at Rolex with Bamboo, Nexus and Maven, and managed an Identity Management project with LDAP and Oracle Identity Manager.

SELECTED PROJECTS

Enterprise AI and Agentic Workflows. Designed enterprise AI demos and reference architectures at Wonderful for RAG, voice AI, agent orchestration and regulated Swiss environments; implemented Claude Enterprise at SCRYPT with Slack, Linear, email and calendar integrations.

Digital Bank Cloud Transformation. Led FlowBank technology through target architecture, AWS migration, DevSecOps culture, annual budget, CRM, Core Banking and real-time data platform enablement.

Cloud and DevOps Platform Work. Built EKS clusters, Helm deployment structures and Terraform infrastructure at Pictet; established Kubernetes, Docker, GitLab and CI/CD pipelines for trade finance tooling at BCP.

EDUCATION

EIGSI La Rochelle

Master of Science, Computer Science
2003 - 2009

B9lab

Ethereum Blockstars, Blockchain - 2019

MongoDB University

Data Modeling / Warehousing and Database Administration

SKILLS

Cloud and architecture: AWS, Kubernetes, EKS, Terraform, Helm, CI/CD, DevSecOps, SRE, monitoring, application integration, APIs, DDD-adjacent architecture

AI and customer advisory: Field CTO, enterprise workshops, GenAI, LLMs, RAG, agents, Claude Enterprise, voice AI, adoption planning, executive demos

Regulated systems: fintech, blockchain custody, core banking, IT audit, IAM, GDPR, risk, observability, audit readiness, sensitive data

Languages: French native/bilingual, English full professional, German limited working
