WORK EXPERIENCE

SCRIPT

Nov 2025 - Dec 2025

Head of Engineering - Zurich, Switzerland

- Led engineering strategy and operations during a focused transformation mandate.
- Drove company-wide AI adoption by implementing Claude Enterprise integrated through Slack with Linear, email, and calendars.
- Created an always-on AI agent for executive and cross-functional work across technology, sales, and marketing.
- Introduced Linear as the company-wide project management platform to improve structure, transparency, and execution visibility.
- Coached teams on AI-assisted engineering practices, practical workflow automation, delivery ownership, and L3 support operating models.

FlowBank

Aug 2022 - Aug 2023

Global Head of Technology, Executive Director - Geneva, Switzerland

- Led the full technology department of approximately 40 people for a FINMA-regulated neobank across software engineering, data, infrastructure, service delivery, and outsourced providers.
- Prepared and owned the technology roadmap, annual budget, target architecture, and execution indicators for the Executive Committee.
- Managed vendor renewals, external service providers, and capacity trade-offs across regulatory, operational, and business priorities.
- Created a real-time data platform connecting trading, compliance, finance, marketing, and quantitative teams.
- Initiated core projects including CRM and Core Banking and led the transition from on-premise infrastructure to AWS.
- Defined development strategy and brought DevSecOps culture, governance, and operating discipline to the department.

Ripple / Metaco

Sep 2023 - Oct 2025

Director Software Engineering - Geneva, Switzerland

- Led up to 50 professionals across Geneva and San Francisco developing a regulated blockchain custody platform for institutional financial clients.
- Managed managers, tech leads, and engineering teams; supported hiring, levelling, coaching, career growth, and team effectiveness.
- Created a dedicated support and L3 squad to absorb client incidents and protect roadmap delivery.
- Established practices for monitoring, QA, release management, testing strategy, process automation, technical debt control, and operational excellence.
- Partnered with leadership, Product, Field Engineering, and clients to shape technical and organizational strategy.
- Achieved 90-96% team satisfaction through structured coaching, transparent ownership, and squad autonomy.

Wonderful

Jan 2026 - Mar 2026

Field CTO - Zurich, Switzerland

- Drove client delivery and presales engagements for an enterprise AI platform with Swiss enterprise prospects, including regulated organizations.
- Led technical demonstrations of AI agent workflows, RAG, voice AI, automation pipelines, and integration patterns for C-level and technical audiences.
- Translated AI platform capabilities into business value, adoption plans, and measurable use cases.

Bazzile Technology SA

Aug 2020 - Present

Chief Product & Technology Officer, Partner - Geneva, Switzerland

- Lead product and technology for a real estate mobile application business, covering product strategy, architecture, backend, cloud, mobile delivery, and AI-enabled product work.
- Built the first production version end-to-end with Elixir/Phoenix, PostgreSQL, APIs, mobile delivery, and production infrastructure.
- Designed and industrialized a voice AI agent for real estate search using generative AI models and agent orchestration.
- Operated a Swiss-hosted production platform with 99.95% uptime through pragmatic reliability, observability, and incident practices.

UBP - Union Bancaire Privée

Nov 2018 - Jul 2020

Internal Auditor - Geneva, Switzerland

- Led IT and banking security audits covering governance, risk, procedures, identity access management, and GDPR-related controls.
- Reported technology risk posture, control gaps, and remediation plans to senior management in French and English.
- Uncovered an application-role bug affecting 0.5% of bank users during an identity access management audit.

Earlier engineering and enterprise systems roles

2009 - 2021

Pictet, BCP, Glencore, Swissquote, Rolex, Axway - Switzerland / France

- Built and led software delivery across cloud infrastructure, commodity trade finance, commodity trading, Forex, identity management, internal enterprise applications, and banking systems.
- Created EKS clusters, Helm charts, Terraform infrastructure, Kubernetes, Docker, GitLab, CI/CD pipelines, Bamboo, Nexus, Maven, LDAP, and Oracle Identity Manager environments.
- Managed an identity management project at Rolex involving web development and infrastructure teams, including LDAP and Oracle Identity Manager.

SELECTED PROJECTS

Enterprise AI Operating System. Implemented Claude Enterprise at SCRYPT with Slack, Linear, email, and calendar integrations, creating an always-on assistant for executive and cross-functional workflows.

Digital Bank Technology Transformation. Led FlowBank technology through target architecture, AWS migration, DevSecOps culture, CRM, Core Banking, annual budget, vendor renewals, and data-driven service enablement.

Distributed Engineering and Support Model. Led Ripple / Metaco teams across Geneva and San Francisco, created L3/support ownership, improved monitoring, QA, release management, and team operating rhythm.

EDUCATION

EIGSI La Rochelle

Master of Science, Computer Science
2003 - 2009

B9lab

Ethereum Blockstars, Blockchain - 2019

MongoDB University

Data Modeling / Warehousing and Database Administration

SKILLS

AI and automation: Claude Enterprise, LLMs, RAG, voice agents, Slack integrations, Linear, agentic workflows, cross-functional automation

Business technology: roadmap, budget, vendor governance, service delivery, access governance, stakeholder alignment

Platforms: AWS, Kubernetes, EKS, Terraform, Helm, CI/CD, DevSecOps, SRE, monitoring, PostgreSQL

Languages: French native/bilingual, English full professional, German limited working
