PROFESSIONAL SUMMARY

Engineering executive and Field CTO with hands-on credibility across enterprise AI, private-cloud infrastructure, Kubernetes, CI/CD, regulated fintech and customer-facing delivery. Led organizations up to 50 people, partnered with Product and Field Engineering, and supported institutional clients in high-trust environments. Strong fit for Cohere's FDE Infrastructure mandate: lead deployment engineers, own customer outcomes, scale private-cloud/on-prem implementation patterns, and keep security, reliability and delivery discipline aligned.

CORE COMPETENCIES

FDE leadership Enterprise AI deployments Private cloud / on-prem Kubernetes / Helm CI/CD and DevSecOps
Customer implementation success Infrastructure scaling OpenSearch / database adjacency GPU/CPU capacity planning
Regulated enterprise security Field Engineering partnership Technical escalation AI adoption Executive communication

WORK EXPERIENCE

Wonderful

Jan 2026 - Mar 2026

Field CTO - Zurich, Switzerland

- Drove customer-facing delivery and presales for an enterprise AI platform with Swiss enterprise prospects, including financial services and regulated organizations.
- Led technical demonstrations of AI agent workflows, RAG, voice AI, automation pipelines and integration patterns for C-level and technical audiences.
- Translated complex AI platform capabilities into implementation options, business value, adoption plans and measurable use cases.
- Bridged customer needs and product capabilities to improve delivery clarity, technical scoping and product feedback loops.

Ripple / Metaco

Sep 2023 - Oct 2025

Director Software Engineering - Geneva, Switzerland

- Led up to 50 professionals across Geneva and San Francisco developing a regulated blockchain custody platform for institutional financial clients.
- Partnered with leadership, Product, Field Engineering and clients to shape technical strategy, delivery priorities and customer-specific outcomes.
- Maintained close relationships with key institutional clients to support specific use cases and implementation outcomes, including HSBC Hong Kong.
- Created a dedicated support and L3 squad to absorb client incidents, improve escalation handling and protect roadmap delivery.
- Defined and drove architecture across multiple products and services, ensuring coherence, maintainability, security, scalability and operational excellence.
- Established practices for monitoring, design reviews, QA, release management, process automation, technical debt control, testing strategy and L3 support.

SCRYPT

Nov 2025 - Dec 2025

Head of Engineering - Zurich, Switzerland

- Led engineering strategy and operations during a focused transformation mandate, defining and delivering the complete product and engineering roadmap.
- Drove company-wide AI adoption by implementing Claude Enterprise through Slack with Linear, email and calendars.
- Created an always-on AI assistant for executive and cross-functional work across technology, sales and marketing.
- Introduced Linear company-wide and reorganized technology teams around delivery and L3 support squads to improve ownership and accountability.

FlowBank

Aug 2022 - Aug 2023

Global Head of Technology, Executive Director - Geneva, Switzerland

- Led the full technology department of approximately 40 people for a FINMA-regulated neobank across engineering, data, infrastructure, service delivery and outsourced providers.
- Prepared and owned technology roadmap, annual budget, execution indicators and architecture direction for the Executive Committee.
- Initiated the transition from on-premise infrastructure to AWS and brought DevSecOps culture to the department.
- Created target architecture and real-time data platform connecting trading, compliance, finance, marketing and quantitative teams.
- Managed vendor renewals, external providers and capacity trade-offs across regulatory, operational and business priorities.

Bazzile Technology SA

Aug 2020 - Present

Chief Product & Technology Officer, Partner - Geneva, Switzerland

- Lead product and technology for a mobile application business, covering product strategy, architecture, backend, cloud, APIs, mobile delivery and AI-enabled product work.
- Built the first production version end-to-end, including Elixir/Phoenix backend, PostgreSQL, APIs, mobile delivery and production infrastructure.
- Designed and industrialized a voice AI agent for real estate search using generative AI models and agent orchestration.

- Operated a Swiss-hosted production platform with 99.95% uptime through pragmatic reliability, observability and incident practices.

Pictet Asset Management

May 2021 - Dec 2021

Site Reliability Engineer, Contractor - Geneva, Switzerland

- Technically led implementation of an End User Computing rollout in a security-constrained asset management environment.
- Created EKS clusters, Helm charts and Terraform infrastructure for a common deployment structure.

UBP - Union Bancaire Privée

Nov 2018 - Jul 2020

Internal Auditor - Geneva, Switzerland

- Led IT and banking security audits covering governance, risk, procedures, identity access management and GDPR-related controls.
- Reported technology risk posture, control gaps and remediation plans to senior management in French and English.

Earlier experience

2009 - 2018

Technical Lead / Software Engineer - BCP, Glencore, Swissquote, Rolex, Axway

- Built banking, trade finance, commodity trading, identity management and enterprise systems; introduced Kubernetes, Docker, GitLab and CI/CD pipelines at BCP.

SELECTED PROOF POINTS

Enterprise AI deployment and adoption. Led customer-facing AI platform discussions at Wonderful; implemented Claude Enterprise at SCRYPT with Slack, Linear, email and calendar integrations for practical cross-functional adoption.

Customer-facing regulated delivery. Led Ripple / Metaco engineering, architecture, L3 support and delivery practices for institutional custody clients, including HSBC Hong Kong.

Infrastructure and governance. Owned FlowBank roadmap, AWS transition, target architecture and executive indicators; built EKS/Helm/Terraform deployment foundations at Pictet.

EDUCATION

EIGSI La Rochelle

Master of Science, Computer Science
2003 - 2009

B9lab

Ethereum Blockstars, Blockchain - 2019

MongoDB University

Data Modeling / Warehousing and Database Administration

SKILLS

AI and delivery: enterprise AI adoption, LLMs, RAG, agentic workflows, Claude Enterprise, voice AI, technical scoping, customer implementation, delivery governance

Platforms: AWS, Kubernetes, EKS, Terraform, Helm, CI/CD, DevSecOps, SRE, observability, APIs, architecture governance
Stakeholders: C-level demos, institutional clients, Product, Field Engineering, security, compliance, operations, vendors, executive committees

Languages: French native/bilingual, English full professional, German limited working
