PROFESSIONAL SUMMARY

Engineering executive with Director Software Engineering, Global Head of Technology, Head of Engineering, CTO/CPO and Field CTO experience across regulated fintech, blockchain custody, banking, cloud, data platforms, DevSecOps and enterprise AI. Led organizations up to 50 people, managed managers and senior technical leaders, and partnered with Product, Finance, Compliance, Field Engineering and institutional clients. Strong fit for Deel's FinTech Platform mandate: scale regulated financial infrastructure, drive product-centric engineering, build audit-ready operating models, and embed AI into engineering and financial workflows with clear guardrails.

CORE COMPETENCIES

Head of Engineering	Leader of leaders	Regulated fintech	Blockchain custody	Financial infrastructure
Payments and treasury adjacency	Auditability and controls	Data integrity	Event-driven platform strategy	AI-first engineering
LLM workflows	Reliability and observability	L3 support	Product / Compliance partnership	

WORK EXPERIENCE

Ripple / Metaco

Sep 2023 - Oct 2025

Director Software Engineering - Geneva, Switzerland

- Led up to 50 professionals across Geneva and San Francisco developing a regulated blockchain custody platform for institutional financial clients.
- Managed managers, tech leads and engineering teams; supported hiring, levelling, coaching, career growth and team effectiveness.
- Partnered with leadership, Product, Field Engineering and clients to shape technical strategy, delivery priorities and customer-specific outcomes.
- Maintained close relationships with key institutional clients, including HSBC Hong Kong implementation needs.
- Drove architecture across products and services, ensuring maintainability, security, scalability, operational excellence and coherent platform direction.
- Created a dedicated L3 support squad to absorb client incidents, improve escalation handling and protect roadmap delivery.
- Led multi-quarter initiatives with prioritization, risk anticipation, capacity planning, contingency planning, release quality and technical debt control.
- Established practices for monitoring, design reviews, QA, release management, process automation, testing strategy and support.
- Achieved 90-96% team satisfaction through structured coaching, transparent ownership and squad autonomy.

FlowBank

Aug 2022 - Aug 2023

Global Head of Technology, Executive Director - Geneva, Switzerland

- Led a ~40-person technology department for a FINMA-regulated neobank across software engineering, data, infrastructure, service delivery and providers.
- Prepared and owned the technology roadmap, annual budget and execution indicators for the Executive Committee.
- Created target architecture and a real-time data platform connecting trading, compliance, finance, marketing and quantitative teams.
- Initiated transition from on-premise infrastructure to AWS and brought DevSecOps culture to the department.
- Managed vendor renewals, external providers and capacity trade-offs across regulatory, operational and business priorities.
- Initiated core projects including CRM and Core Banking.

SCRYPT

Nov 2025 - Dec 2025

Head of Engineering - Zurich, Switzerland

- Led engineering strategy and operations during a focused transformation mandate, defining and delivering the product and engineering roadmap.
- Drove company-wide AI adoption by implementing Claude Enterprise through Slack with Linear, email and calendars.
- Created an always-on AI assistant for executive and cross-functional work across technology, sales and marketing.
- Introduced Linear company-wide and reorganized teams around delivery and L3 support squads to improve ownership and accountability.

Bazzile Technology SA

Aug 2020 - Present

Chief Product & Technology Officer, Partner - Geneva, Switzerland

- Lead product and technology for a mobile application business, covering product strategy, architecture, backend, cloud, APIs, mobile delivery and AI-enabled work.
- Built the first production version end-to-end with Elixir/Phoenix, PostgreSQL, APIs, mobile delivery and production infrastructure.
- Designed and industrialized a voice AI agent using generative AI models and agent orchestration.
- Operated a Swiss-hosted production platform with 99.95% uptime through pragmatic reliability, observability and incident practices.

Wonderful

Jan 2026 - Mar 2026

Field CTO - Zurich, Switzerland

- Drove client delivery and presales for an enterprise AI platform with Swiss enterprise prospects, including financial services and regulated organizations.
- Presented AI agent workflows, RAG, voice AI, automation pipelines and integration patterns to C-level and technical audiences.

Earlier engineering, platform and audit roles

2009 - 2021

Pictet, UBP, BCP, SIX, Glencore, Swissquote, Rolex, Axway - Switzerland / France

- Built software and platforms across asset management, banking audits, commodity trade finance, structured products, commodity trading, Forex, IAM and enterprise applications.
- Created EKS clusters, Helm charts and Terraform infrastructure at Pictet; introduced Kubernetes, Docker, GitLab and CI/CD pipelines at BCP.
- Led IT/security audits at UBP covering governance, risk, IAM and GDPR controls, including one application-role bug affecting 0.5% of users.

SELECTED PROJECTS

Regulated custody engineering organization. Led Ripple / Metaco engineering for institutional blockchain custody, scaling teams across Geneva and San Francisco while partnering with Product, Field Engineering and clients.

Digital bank technology transformation. Led FlowBank technology through target architecture, AWS migration, DevSecOps culture, Core Banking, roadmap, budget and data-driven service enablement.

AI-first operating model. Implemented Claude Enterprise at SCRYPT with Slack, Linear, email and calendar integrations; designed enterprise AI demos at Wonderful for regulated Swiss environments.

EDUCATION

EIGSI La Rochelle

Master of Science, Computer Science
2003 - 2009

B9lab

Ethereum Blockstars, Blockchain - 2019

MongoDB University

Data Modeling / Warehousing and Database Administration

SKILLS

Leadership: Head of Engineering, Director Software Engineering, CTO/CPO, manager-of-managers, hiring, coaching, career frameworks, team scaling

Fintech: regulated custody, neobank technology, core banking, compliance, security, auditability, data integrity, client delivery, risk controls

Platforms: AWS, Kubernetes, EKS, Terraform, Helm, CI/CD, DevSecOps, SRE, monitoring, APIs, PostgreSQL, Elixir, Java, Scala, Node.js, Python

AI: LLMs, Claude Enterprise, RAG, agentic workflows, voice AI, AI-assisted engineering, workflow automation, governance-minded adoption
