PROFESSIONAL SUMMARY

Engineering executive with Director Software Engineering, Global Head of Technology, Head of Engineering, CTO/CPO and Field CTO experience. Led organizations up to 50 people across regulated blockchain custody, fintech, banking, cloud, data platforms, DevSecOps and enterprise AI. Strong fit for Digital Asset's Senior Director of Engineering mandate: run the delivery engine for a high-caliber engineering organization, partner with CTO/CPO leadership, scale managers and teams, improve planning/release quality, manage budget and preserve security posture for institutional financial infrastructure.

CORE COMPETENCIES

Leader of leaders Global engineering teams Regulated blockchain custody Institutional finance Delivery operating model
Planning and execution Release and quality management L3 support Engineering budget Security posture Career frameworks
CTO / CPO partnership

WORK EXPERIENCE

Ripple / Metaco

Sep 2023 - Oct 2025

Director Software Engineering - Geneva, Switzerland

- Led up to 50 professionals across Geneva and San Francisco developing a regulated blockchain custody platform for institutional financial clients.
- Managed managers, tech leads and engineering teams; supported career growth, hiring, levelling, coaching and team effectiveness.
- Maintained close relationships with institutional clients to support use cases and delivery outcomes, including the HSBC Hong Kong implementation.
- Launched and organized multiple teams into squads to break silos, improve delivery focus and clarify ownership.
- Created a dedicated support and L3 squad to absorb client incidents and protect roadmap delivery.
- Drove architecture across products and services, ensuring coherence, maintainability, security, scalability and operational excellence.
- Led large multi-quarter engineering initiatives, including prioritization, risk anticipation, capacity planning and contingency planning.
- Established practices for quality, monitoring, reviews, automation, technical debt control, testing, QA, release management and L3 support.
- Partnered with leadership, Product, Field Engineering and clients to shape technical and organizational strategy.
- Achieved 90-96% team satisfaction through structured coaching, transparent ownership and squad autonomy.

FlowBank

Aug 2022 - Aug 2023

Global Head of Technology, Executive Director - Geneva, Switzerland

- Led the full technology department of approximately 40 people for a FINMA-regulated neobank across software engineering, data, infrastructure, service delivery and outsourced providers.
- Prepared and owned the technology roadmap, annual budget and execution indicators for the Executive Committee.
- Initiated and led the transition from on-premise infrastructure to AWS.
- Created target architecture and a real-time data platform connecting trading, compliance, finance, marketing and quantitative teams.
- Managed vendor renewals, external service providers and capacity trade-offs across regulatory, operational and business priorities.
- Introduced DevSecOps culture and initiated core projects including CRM and Core Banking.

SCRYPT

Nov 2025 - Dec 2025

Head of Engineering - Zurich, Switzerland

- Led engineering strategy and operations during a focused transformation mandate.
- Introduced Linear as the company-wide project management platform to improve structure, visibility and delivery tracking.
- Reorganized technology teams around delivery and L3 support squads, improving ownership and accountability.

Bazzile Technology SA

Aug 2020 - Present

Chief Product & Technology Officer, Partner - Geneva, Switzerland

- Lead product and technology for a real estate mobile application business, covering product strategy, architecture, backend, cloud, mobile delivery and AI-enabled work.
- Built the first production version end-to-end with Elixir/Phoenix, PostgreSQL, APIs, mobile delivery and production infrastructure.
- Operated a Swiss-hosted production platform with 99.95% uptime through pragmatic reliability, observability and incident practices.

Wonderful

Jan 2026 - Mar 2026

Field CTO - Zurich, Switzerland

- Drove client delivery and presales engagements for an enterprise AI platform with Swiss enterprise prospects, including financial services and regulated organizations.
- Earlier engineering, platform and audit roles** 2009 - 2021
- Pictet, UBP, BCP, SIX, Glencore, Swissquote, Rolex, Axway - Switzerland / France**
- Built software and platforms across asset management, banking audits, commodity trade finance, structured products, commodity trading, Forex, identity management and internal enterprise applications.
 - Created EKS clusters, Helm charts and Terraform infrastructure at Pictet; introduced Kubernetes, Docker, GitLab and CI/CD pipelines at BCP.
 - Led IT/security audits at UBP covering governance, risk, IAM and GDPR controls, including one application-role bug affecting 0.5% of users.
 - Used Java, Spring Boot, Angular, Scala, Node.js, Python, Elixir, Kubernetes, Docker, GitLab, CI/CD, LDAP and Oracle Identity Manager.

SELECTED PROJECTS

Blockchain Custody Engineering Organization. Led engineering for Ripple / Metaco's regulated custody platform, scaling teams across Geneva and San Francisco while partnering with Product, Field Engineering and institutional clients.

Digital Bank Technology Transformation. Led FlowBank technology through target architecture, AWS migration, DevSecOps culture, CRM, Core Banking, annual budget and data-driven service enablement.

Engineering Operating Model. Introduced Linear and reorganized SCRYPT teams around delivery and L3 support squads to improve visibility, ownership and accountability.

EDUCATION

EIGSI La Rochelle
Master of Science, Computer Science
2003 - 2009

B9lab
Ethereum Blockstars, Blockchain - 2019

MongoDB University
Data Modeling / Warehousing and Database Administration

SKILLS

Leadership: Director Software Engineering, Head of Engineering, CTO/CPO, manager-of-managers, hiring, coaching, career frameworks, team scaling

Delivery: roadmap, planning, capacity, risk management, release quality, QA, L3 support, technical debt, operating cadence, executive reporting

Technology: regulated blockchain custody, fintech, AWS, Kubernetes, EKS, Terraform, Helm, CI/CD, DevSecOps, SRE, monitoring, Scala, Java, Elixir

Languages: French native/bilingual, English full professional, German limited working
