Swiss work permit C

PROFESSIONAL SUMMARY

Field CTO and technology executive focused on enterprise GenAI adoption, regulated cloud architecture and customer-facing technical leadership. Led organizations up to 50 people while staying close to AWS, Kubernetes, EKS, Terraform, CI/CD, observability, security and architecture. Strong fit for Principal AI/ML/GenAI Specialist Solutions Architect work: C-suite engagement, strategic account support, applied RAG and agentic workflows, responsible adoption, roadmap translation and GTM-scale enablement across regulated Swiss and EMEA contexts.

CORE COMPETENCIES

Principal solutions architecture	AI/ML/GenAI strategy	Agentic systems / RAG	Voice AI and LLM products
Responsible AI governance	C-suite engagement	EMEA GTM enablement	Product roadmap influence
Strategic account escalation	AWS cloud transformation	Kubernetes / EKS	Regulated fintech architecture

WORK EXPERIENCE

Wonderful

Jan 2026 - Mar 2026

Field CTO - Zurich, Switzerland

- Drove client delivery and presales engagements for an enterprise AI platform with Swiss enterprise prospects, including financial services and regulated organizations.
- Led technical demonstrations of AI agent workflows, RAG, voice AI, automation and integration patterns for C-level and technical audiences.
- Translated complex AI platform capabilities into business value, adoption plans, architecture options and measurable use cases.
- Bridged customer needs and product capabilities to improve enterprise AI adoption, delivery clarity and product feedback loops.

SCRYPT

Nov 2025 - Dec 2025

Head of Engineering - Zurich, Switzerland

- Drove company-wide AI adoption by implementing Claude Enterprise integrated through Slack with Linear, email and calendars.
- Created an always-on AI assistant for executive and cross-functional work across technology, sales and marketing.
- Coached teams on AI-assisted engineering practices, workflow automation and practical operating discipline.

Bazzile Technology SA

Aug 2020 - Present

Chief Product & Technology Officer, Partner - Geneva, Switzerland

- Lead product and technology for a real estate mobile application business, covering product strategy, architecture, backend, cloud, APIs, mobile delivery and AI-enabled product work.
- Designed and industrialized a voice AI agent for real estate search using generative AI models and agent orchestration.
- Operated a Swiss-hosted production platform with 99.95% uptime through pragmatic reliability, observability and incident practices.

FlowBank

Aug 2022 - Aug 2023

Global Head of Technology, Executive Director - Geneva, Switzerland

- Led the full technology department of approximately 40 people for a FINMA-regulated neobank across engineering, data, infrastructure, service delivery and outsourced providers.
- Initiated and led the transition from on-premise infrastructure to AWS, defining target architecture and modernization priorities under regulatory constraints.
- Prepared and owned technology roadmap, annual budget, execution indicators and architecture direction for the Executive Committee.
- Created a real-time data platform connecting trading, compliance, finance, marketing and quantitative teams.

Ripple / Metaco

Sep 2023 - Oct 2025

Director Software Engineering - Geneva, Switzerland

- Led up to 50 professionals across Geneva and San Francisco developing a regulated blockchain custody platform for institutional financial clients.
- Maintained close relationships with key institutional clients to support specific use cases and delivery outcomes, including the HSBC Hong Kong implementation.
- Defined and drove architecture across multiple products and services, ensuring coherence, maintainability, security, scalability and operational excellence.
- Established practices for monitoring, design reviews, QA, release management, automation, technical debt control, testing strategy and L3 support.
- Partnered with leadership, Product, Field Engineering and clients to shape technical and organizational strategy.

Pictet Asset Management

May 2021 - Dec 2021

Site Reliability Engineer, Contractor - Geneva, Switzerland

- Technically led implementation of an End User Computing rollout in a security-constrained asset management environment.
 - Created EKS clusters, Helm charts and Terraform infrastructure for a common deployment structure.
- UBP - Union Bancaire Privee** Nov 2018 - Jul 2020
- Internal Auditor - Geneva, Switzerland**
- Led IT and banking security audits covering governance, risk, procedures, identity access management and GDPR-related controls.
 - Reported technology risk posture, control gaps and remediation plans to senior management in French and English.
 - Uncovered an application-role bug affecting 0.5% of bank users during an identity access management audit.
- Earlier experience** 2009 - 2018
- Technical Lead / Software Engineer - BCP, Glencore, Swissquote, Rolex, Axway**
- Built banking, commodity trading, trade finance, identity management and enterprise systems; introduced Kubernetes, Docker, GitLab and CI/CD pipelines at BCP.

SELECTED PROOF POINTS

Enterprise GenAI and Agentic GTM. Led AI platform demonstrations and customer architecture discussions for RAG, voice AI, agent orchestration, automation and integrations at Wonderful; implemented Claude Enterprise at SCRYPT with Slack, Linear, email and calendar workflows.

Regulated AWS and Data Platform Strategy. Led FlowBank technology through target architecture, AWS migration, DevSecOps culture, annual budget, CRM, Core Banking and real-time data platform enablement.

Strategic Institutional Client Architecture. Led architecture, delivery and support practices for Ripple / Metaco's regulated custody platform, including institutional client outcomes and product/field engineering collaboration.

EDUCATION

EIGSI La Rochelle
Master of Science, Computer Science
2003 - 2009

B9lab
Ethereum Blockstars, Blockchain - 2019

MongoDB University
Data Modeling / Warehousing and Database Administration

SKILLS

AI and customer advisory: Field CTO, enterprise workshops, GenAI, LLMs, RAG, agents, Claude Enterprise, voice AI, adoption planning, executive demos, product feedback

Cloud and architecture: AWS, Kubernetes, EKS, Terraform, Helm, CI/CD, DevSecOps, SRE, monitoring, application integration, APIs, architecture governance

Regulated systems: fintech, blockchain custody, core banking, IT audit, IAM, GDPR, risk, observability, audit readiness, sensitive data

Languages: French native/bilingual, English full professional, German limited working
