

Thibault Fouache

Business Technology Lead - AI automation, regulated fintech operations and banking platform enablement

Geneva, Switzerland +41 76 585 71 89 thibault.fouache@pm.me www.linkedin.com/in/thibault-gva github.com/RoyalMist

PROFESSIONAL SUMMARY

Technology and product leader based in Geneva with direct experience in FINMA-regulated banking, compliance-adjacent data platforms, AI automation, business technology enablement and production delivery. Led technology organizations up to 50 people across digital banking, blockchain custody, cloud platforms, data, DevSecOps and enterprise AI adoption. Strong fit for Alpian's Business Technology Lead mandate: translating operational constraints into executable solution designs, identifying AI and automation opportunities, aligning Product, Compliance and Engineering, and delivering measurable improvements with auditability.

CORE COMPETENCIES

Regulated Financial Services	AI and Workflow Automation	KYC / Compliance Enablement	Solution Design	Business Requirements
Banking Data Platforms	Production Delivery	Audit Trail and Controls	Product Roadmaps	Stakeholder Enablement

WORK EXPERIENCE

Wonderful Jan 2026 - Mar 2026

Field CTO - Switzerland

- Led technical demonstrations of AI agent workflows, RAG, voice AI, automation pipelines and integration patterns for C-level and technical audiences.
- Translated complex AI platform capabilities into business value, adoption plans and measurable use cases for Swiss enterprise prospects, including financial services and regulated organizations.
- Bridged client needs and product capabilities to improve delivery outcomes and adoption planning.

Bazzile Technology SA Aug 2020 - Present

Chief Product & Technology Officer, Partner - Geneva

- Own product and technology for a Swiss mobile application business, covering product strategy, architecture, backend, cloud, mobile delivery and AI-enabled product work.
- Built the first production version end-to-end with Elixir/Phoenix, PostgreSQL, APIs, mobile delivery and production infrastructure.
- Designed and industrialized a voice AI agent using generative AI models and agent orchestration.
- Operated a Swiss-hosted production platform with 99.95% uptime through reliability, observability and incident practices.

SCRYPT Nov 2025 - Dec 2025

Head of Engineering - Zurich

- Drove company-wide AI adoption by implementing Claude Enterprise integrated through Slack with Linear, email and calendars for executive and cross-functional work.
- Introduced Linear company-wide to improve delivery structure, visibility, prioritization and operational accountability.
- Reorganized technology teams around delivery and L3 support squads, improving ownership and support flows.
- Coached teams on AI-assisted engineering practices and practical workflow automation.

Ripple / Metaco Sep 2023 - Oct 2025

Director Software Engineering - Geneva

- Led up to 50 professionals developing a regulated blockchain custody platform for institutional financial clients.
- Defined and drove architecture across products and services, ensuring coherence, maintainability, security, scalability and operational excellence.
- Partnered with leadership, Product, Field Engineering and clients to shape technical and organizational strategy.
- Created a dedicated support and L3 squad to absorb client incidents and protect roadmap delivery.
- Established monitoring, QA, release management, technical debt control, code/design reviews and delivery reliability practices.

FlowBank Aug 2022 - Aug 2023

Global Head of Technology, Executive Director - Geneva

- Led a FINMA-regulated neobank technology department of around 40 people across software engineering, data, infrastructure, service delivery and outsourced providers.
- Owned technology roadmap, annual budget, execution indicators and architecture direction for the Executive Committee.
- Created target architecture and a real-time data platform connecting trading, compliance, finance, marketing and quantitative teams.

- Initiated core projects including CRM and Core Banking; managed vendor renewals and capacity trade-offs across regulatory, operational and business priorities.
- Initiated the transition from on-premise infrastructure to AWS and brought DevSecOps culture to the department.

UBP - Union Bancaire Privee

Nov 2018 - Jul 2020

Internal Auditor - Geneva

- Led IT and banking security audits covering governance, risk, procedures, identity access management and GDPR-related controls.
- Prepared recommendations, discussed remediation with departments and leadership, and reported technology risk posture to senior management.
- Used R and Tableau to turn raw data into audit insights; uncovered an application-role bug affecting 0.5% of bank users.

SELECTED PROJECTS

Enterprise AI Operating System

- Implemented Claude Enterprise at SCRYPT with Slack, Linear, email and calendar integrations for executive and cross-functional workflows.

Digital Bank Technology Transformation

- Led target architecture, AWS migration, DevSecOps, CRM/Core Banking initiatives and data-platform design for a FINMA-regulated neobank.

Banking Controls and Audit Analytics

- Led banking security audits, identity access management reviews and control remediation discussions; used analytics to make audit findings actionable.

Enterprise AI and Agentic Workflows

- Designed demos and reference architectures for RAG, voice AI, agent orchestration and automation pipelines in regulated Swiss enterprise contexts.

EDUCATION AND CERTIFICATIONS

EIGSI La Rochelle

Master of Science, Computer Science

Certifications

Programming with Google Go; Ethereum Developer; Quorum

SKILLS

AI adoption, LLMs, RAG, voice AI, agentic workflows, Slack/Linear automation, AWS, Kubernetes, EKS, Terraform, Helm, CI/CD, DevSecOps, SRE, PostgreSQL, Elixir/Phoenix, React, Java, Scala, Python, Go, Node.js, GDPR, IAM, IT audit, cybersecurity risk assessment. Languages: French native, English professional, German limited.
