PROFESSIONAL SUMMARY

Engineering executive and Field CTO with 17+ years across enterprise architecture, AI adoption, cloud modernization, data platforms, system integration, cybersecurity and regulated financial platforms. Led organizations up to 50 people, managed managers and technical leaders, advised executive committees, and presented AI, RAG, agentic workflows and integration patterns to C-level audiences. Strong fit for Celonis' Enterprise Architect Director role: lead senior architects, connect technical strategy to customer value, unblock enterprise modernization, and bridge Sales, Product, Engineering, Data Ops and Security.

CORE COMPETENCIES

Enterprise architecture leadership Field CTO / executive sponsor Agentic AI and automation Capability mapping adjacency
Enterprise modernization Data architecture System integrations and APIs Cloud-native architecture SaaS and platform strategy
Cybersecurity posture C-level communication Technical pre-sales Revenue-supporting teams Partner and stakeholder alignment

WORK EXPERIENCE

Wonderful

Jan 2026 - Mar 2026

Field CTO - Zurich, Switzerland

- Drove client delivery and presales for an enterprise AI platform with Swiss enterprise prospects, including financial services and regulated organizations.
- Presented AI agent workflows, RAG, voice AI, automation pipelines and integration patterns to C-level and technical audiences.
- Translated complex AI capabilities into business value, adoption plans, technical options and measurable enterprise use cases.
- Bridged client needs and product capabilities to improve delivery outcomes, technical scoping and product feedback loops.

Ripple / Metaco

Sep 2023 - Oct 2025

Director Software Engineering - Geneva, Switzerland

- Led up to 50 professionals across Geneva and San Francisco building a regulated blockchain custody platform for institutional financial clients.
- Partnered with leadership, Product, Field Engineering and clients to shape architecture, technical strategy, delivery priorities and customer-specific outcomes.
- Maintained close relationships with key institutional clients, including support for HSBC Hong Kong implementation needs.
- Defined and drove architecture across products and services, ensuring maintainability, security, scalability, operational excellence and coherent platform direction.
- Created a dedicated L3 support squad to absorb client incidents, improve technical escalation handling and protect roadmap delivery.
- Established practices for monitoring, design reviews, QA, release management, process automation, technical debt control, testing strategy and support.

SCRYPT

Nov 2025 - Dec 2025

Head of Engineering - Zurich, Switzerland

- Led engineering strategy and operations during a focused transformation mandate, defining and delivering the complete product and engineering roadmap.
- Drove company-wide AI adoption by implementing Claude Enterprise through Slack with Linear, email and calendars.
- Created an always-on AI assistant for executive and cross-functional work across technology, sales and marketing.
- Introduced Linear company-wide and reorganized technology teams around delivery and L3 support squads to improve ownership and accountability.

FlowBank

Aug 2022 - Aug 2023

Global Head of Technology, Executive Director - Geneva, Switzerland

- Led a ~40-person technology department for a FINMA-regulated neobank across engineering, data, infrastructure, service delivery and outsourced providers.
- Prepared and owned technology roadmap, annual budget, execution indicators and architecture direction for the Executive Committee.
- Initiated transition from on-premise infrastructure to AWS and brought DevSecOps culture to the department.
- Created target architecture and real-time data platform connecting trading, compliance, finance, marketing and quantitative teams.
- Managed vendor renewals, external providers and capacity trade-offs across regulatory, operational and business priorities.

Bazzile Technology SA

Aug 2020 - Present

Chief Product & Technology Officer, Partner - Geneva, Switzerland

- Lead product and technology for a mobile application business, covering product strategy, architecture, backend, cloud, APIs, mobile delivery and AI-enabled product work.
- Built the first production version end-to-end with Elixir/Phoenix, PostgreSQL, APIs, mobile delivery and production infrastructure.
- Designed and industrialized a voice AI agent for real estate search using generative AI models and agent orchestration.
- Operated a Swiss-hosted production platform with 99.95% uptime through pragmatic reliability, observability and incident practices.

Pictet Asset Management

May 2021 - Dec 2021

Site Reliability Engineer, Contractor - Geneva, Switzerland

- Technically led implementation of an End User Computing rollout in a security-constrained asset management environment.
- Created EKS clusters, Helm charts and Terraform infrastructure for a common deployment structure.

UBP - Union Bancaire Privée

Nov 2018 - Jul 2020

Internal Auditor - Geneva, Switzerland

- Led IT and banking security audits covering governance, risk, procedures, identity access management and GDPR-related controls.
- Reported technology risk posture, control gaps and remediation plans to senior management in French and English.

Earlier experience

2009 - 2018

Technical Lead / Software Engineer - BCP, Glencore, Swissquote, Rolex, Axway

- Built banking, trade finance, commodity trading, identity management and enterprise systems; introduced Kubernetes, Docker, GitLab and CI/CD pipelines at BCP.

SELECTED PROOF POINTS

Enterprise AI and executive sponsorship. Led customer-facing enterprise AI platform discussions at Wonderful; implemented Claude Enterprise at SCRYPT with Slack, Linear, email and calendar integrations for practical cross-functional adoption.

Regulated enterprise architecture and client delivery. Led Ripple / Metaco engineering, architecture, L3 support and delivery practices for institutional custody clients, including HSBC Hong Kong.

Data, cloud and modernization. Owned FlowBank roadmap, AWS transition, target architecture and executive indicators; built EKS/Helm/Terraform deployment foundations at Pictet.

EDUCATION

EIGSI La Rochelle

Master of Science, Computer Science
2003 - 2009

B9lab

Ethereum Blockstars, Blockchain - 2019

MongoDB University

Data Modeling / Warehousing and Database Administration

SKILLS

AI and transformation: enterprise AI adoption, LLMs, RAG, agentic workflows, Claude Enterprise, voice AI, automation, C-level demos, adoption planning

Architecture: AWS, Kubernetes, EKS, Terraform, Helm, CI/CD, DevSecOps, SRE, observability, APIs, PostgreSQL, system integration, data platforms

Stakeholders: C-level buyers, Sales, Product, Field Engineering, security, compliance, operations, vendors, executive committees, institutional clients

Languages: French native/bilingual, English full professional, German limited working
