PROFESSIONAL SUMMARY

Geneva-based technology executive with experience as Field CTO, CTO/CPO, Head of Engineering, Global Head of Technology and Director Software Engineering. Led organizations up to 50 people across regulated banking, fintech, blockchain custody, cloud, data platforms, DevOps, enterprise AI and supply-chain-adjacent trade systems. Strong fit for Atlantic Gate's Corporate IT Director mandate: global IT roadmap, ERP/TMS/CRM/BI integration, cybersecurity, IT governance, budget, vendors, automation, EDI/API-style integration and international stakeholder alignment.

CORE COMPETENCIES

Global IT strategy

Digital transformation

ERP / CRM / core systems

TMS / logistics-adjacent systems

Cybersecurity governance

IT budget and vendors

BI / dashboards / KPIs

Cloud AWS / Kubernetes

Automation and APIs

International team leadership

WORK EXPERIENCE

Wonderful

Jan. 2026 - Mar. 2026

Field CTO - Zurich, Switzerland

- Led presales and client delivery for an enterprise AI platform with Swiss enterprise prospects, including financial services and regulated organizations.
- Ran technical demonstrations of AI agent workflows, RAG, voice AI, automation pipelines and integration patterns for C-level and technical audiences.
- Translated complex platform capabilities into business value, adoption plans and measurable use cases.

Bazzile Technology SA

Aug. 2020 - Present

Chief Product & Technology Officer, Partner - Geneva

- Lead product and technology for a Swiss production platform, covering product strategy, architecture, backend, cloud, mobile delivery, security risk work and AI-enabled features.
- Built the first production version end-to-end with Elixir/Phoenix, PostgreSQL, APIs, mobile delivery and production infrastructure.
- Operated a Swiss-hosted production platform with 99.95% uptime through pragmatic reliability, observability and incident practices.
- Managed software engineers and external providers to meet business needs quickly.

SCRYPT

Nov. 2025 - Dec. 2025

Head of Engineering - Zurich, Switzerland

- Led engineering strategy and operations during a focused transformation mandate.
- Defined and delivered the product and engineering roadmap; introduced Linear company-wide for structure, visibility and execution tracking.
- Reorganized teams around delivery and L3 support squads to improve ownership, accountability and operational performance.
- Implemented Claude Enterprise through Slack with Linear, email and calendars to support executive and cross-functional workflows across technology, sales and marketing.

Ripple / Metaco

Sept. 2023 - Oct. 2025

Director Software Engineering - Geneva

- Led up to 50 professionals across Geneva and San Francisco developing a regulated blockchain custody platform for institutional financial clients.
- Managed managers, tech leads and engineering teams; supported hiring, levelling, coaching, career growth and team effectiveness.

- Created a dedicated support and L3 squad to absorb client incidents, protect roadmap delivery and improve service quality.
- Established practices for software quality, monitoring, code and design reviews, process automation, technical debt control, testing, QA and release management.
- Achieved 90-96% team satisfaction through structured coaching, transparent ownership and squad autonomy.

FlowBank

Aug. 2022 - Aug. 2023

Global Head of Technology, Executive Director - Geneva

- Led the full technology department of approximately 40 people for a FINMA-regulated neobank covering software engineering, data, infrastructure, service delivery and outsourced providers.
- Built the technology vision, roadmap, annual budget and execution indicators for the Executive Committee.
- Initiated the transition from on-premise infrastructure to AWS and created the target architecture.
- Created a real-time data platform connecting trading, compliance, finance, marketing and quantitative teams.
- Managed vendor renewals, external service providers and capacity trade-offs across regulatory, operational and business priorities.
- Launched core projects including CRM and Core Banking while bringing DevSecOps culture to the department.

Pictet Asset Management

May 2021 - Dec. 2021

Site Reliability Engineer, Contractor - Geneva

- Technically led implementation of an End User Computing rollout in a security-constrained asset management environment.
- Created EKS clusters, Helm charts and Terraform infrastructure; led 2 SREs and provided internal React training.

UBP - Union Bancaire Privée

Nov. 2018 - Jul. 2020

Internal Auditor - Geneva

- Led IT and banking security audits covering governance, risk, procedures, GDPR-related controls, IAM and remediation planning.
- Reported technology risk posture, control gaps and remediation plans to senior management in French and English.
- Used R and Tableau to turn raw data into audit insights; uncovered an application-role bug affecting 0.5% of bank users.

BCP / Glencore / Swissquote / Rolex

2011 - 2018

Technical Lead / Software Engineer - Switzerland

- BCP: built commodity trade finance tooling, coordinated offshore developers and introduced Kubernetes, Docker, GitLab and CI/CD pipelines.
- Glencore: contributed to a commodity trade system rewrite by capturing trader needs and providing technical architecture, TDD/Scrum, Spring Boot and Angular delivery.
- Swissquote / Rolex: architecture for Forex algorithms, offshore team leadership, internal applications, software factory and Identity Management with LDAP / Oracle Identity Manager.

RELEVANT PROJECTS

Digital Bank Technology Transformation - Led FlowBank's technology organization through target architecture, AWS migration, DevSecOps culture, budget planning, CRM, Core Banking and data-driven services.

Commodity and Trade Systems - Built BCP commodity trade finance tooling and contributed to Glencore's commodity trade system rewrite, capturing business workflows and delivering technical architecture.

Security Governance and IAM Audit - Led UBP IT/security audits across governance, GDPR controls, IAM, senior reporting and remediation planning.

Cloud and DevOps Platform Work - Built EKS, Helm and Terraform at Pictet; Kubernetes, Docker, GitLab and CI/CD for banking/trade finance tooling at BCP.

EDUCATION

EIGSI La Rochelle - Master of Science, Computer Science, 2003-2009

B9lab - Ethereum Blockstars, Blockchain, 2019
