Swiss work permit C

PROFESSIONAL SUMMARY

Technology executive and Field CTO focused on AI transformation, internal technology, engineering operating models and regulated platforms. Led organizations up to 50 people and owned roadmaps, budgets, architecture, service delivery, vendor governance, AI adoption and executive steering. Strong fit for refurbed's Internal Technology & AI mandate: refine AI strategy, build a prioritized portfolio, scale AI-first ways of working, lead internal AI tooling and corporate IT outcomes, and turn adoption into measurable productivity gains.

CORE COMPETENCIES

AI transformation strategy	Internal AI tooling	AI governance	Adoption and upskilling	Portfolio steering	Impact measurement
Build-vs-buy decisions	Corporate IT outcomes	SaaS / identity governance	LLMs / agents / RAG	Internal products	
CPTO partnership	Architecture trade-offs	Remote-first leadership			

WORK EXPERIENCE

SCRYPT

Nov 2025 - Dec 2025

Head of Engineering - Zurich, Switzerland

- Drove company-wide AI adoption by implementing Claude Enterprise through Slack with Linear, email and calendars.
- Created an always-on AI assistant for executive and cross-functional work across technology, sales and marketing.
- Led engineering strategy and operations during a focused transformation mandate, defining and delivering the complete product and engineering roadmap.
- Introduced Linear company-wide and reorganized technology teams around delivery and L3 support squads to improve ownership and accountability.
- Coached teams on AI-assisted engineering practices and practical workflow automation.

FlowBank

Aug 2022 - Aug 2023

Global Head of Technology, Executive Director - Geneva, Switzerland

- Led the full technology department of approximately 40 people for a FINMA-regulated neobank across engineering, data, infrastructure, service delivery and outsourced providers.
- Prepared and owned technology roadmap, annual budget, execution indicators and architecture direction for the Executive Committee.
- Managed vendor renewals, external providers and capacity trade-offs across regulatory, operational and business priorities.
- Initiated the transition from on-premise infrastructure to AWS and brought DevSecOps culture to the department.
- Created target architecture and real-time data platform connecting trading, compliance, finance, marketing and quantitative teams.

Wonderful

Jan 2026 - Mar 2026

Field CTO - Zurich, Switzerland

- Drove customer-facing delivery and presales for an enterprise AI platform with Swiss enterprise prospects, including financial services and regulated organizations.
- Led technical demonstrations of AI agent workflows, RAG, voice AI, automation pipelines and integration patterns for C-level and technical audiences.
- Translated complex AI platform capabilities into implementation options, business value, adoption plans and measurable use cases.
- Bridged customer needs and product capabilities to improve delivery clarity, technical scoping and product feedback loops.

Ripple / Metaco

Sep 2023 - Oct 2025

Director Software Engineering - Geneva, Switzerland

- Led up to 50 professionals across Geneva and San Francisco developing a regulated blockchain custody platform for institutional financial clients.
- Partnered with leadership, Product, Field Engineering and clients to shape technical strategy, delivery priorities and customer-specific outcomes.
- Defined and drove architecture across multiple products and services, ensuring coherence, maintainability, security, scalability and operational excellence.
- Created a dedicated support and L3 squad to absorb client incidents, improve escalation handling and protect roadmap delivery.
- Established practices for monitoring, design reviews, QA, release management, automation, technical debt control, testing strategy and L3 support.
- Maintained relationships with institutional clients to support use cases and delivery outcomes, including HSBC Hong Kong.

Bazzile Technology SA

Aug 2020 - Present

Chief Product & Technology Officer, Partner - Geneva, Switzerland

- Lead product and technology for a mobile application business, covering product strategy, architecture, backend, cloud, APIs, mobile delivery and AI-enabled product work.
- Designed and industrialized a voice AI agent for real estate search using generative AI models and agent orchestration.
- Built the first production version end-to-end, including Elixir/Phoenix backend, PostgreSQL, APIs, mobile delivery and production infrastructure.

- Operated a Swiss-hosted production platform with 99.95% uptime through reliability, observability and incident practices.

UBP - Union Bancaire Privée

Nov 2018 - Jul 2020

Internal Auditor - Geneva, Switzerland

- Led IT and banking security audits covering governance, risk, procedures, identity access management and GDPR-related controls.
- Prepared recommendations, discussed remediation with departments and leadership, and reported technology risk posture to senior management.
- Uncovered an application-role bug affecting 0.5% of bank users during an identity access management audit.

Pictet Asset Management

May 2021 - Dec 2021

Site Reliability Engineer, Contractor - Geneva, Switzerland

- Technically led implementation of an End User Computing rollout in a security-constrained asset management environment.
- Created EKS clusters, Helm charts and Terraform infrastructure for a common deployment structure.

Earlier experience

2009 - 2018

Technical Lead / Software Engineer - BCP, Glencore, Swissquote, Rolex, Axway

- Built banking, trade finance, commodity trading, identity management and enterprise systems; introduced Kubernetes, Docker, GitLab and CI/CD pipelines at BCP.

SELECTED PROOF POINTS

AI-native operating layer. Implemented Claude Enterprise at SCRYPT with Slack, Linear, email and calendar integrations; coached teams on AI-assisted engineering and workflow automation.

Internal technology backbone. Owned FlowBank roadmap, budget, vendors, service delivery, AWS transition, target architecture and execution indicators for the Executive Committee.

Responsible technology governance. Led UBP IT/security audits and identity access controls; built regulated platform operating discipline at Ripple / Metaco.

EDUCATION

EIGSI La Rochelle

Master of Science, Computer Science
2003 - 2009

B9lab

Ethereum Blockstars, Blockchain - 2019

MongoDB University

Data Modeling / Warehousing and Database Administration

SKILLS

AI and adoption: enterprise AI adoption, LLMs, RAG, agents, Claude Enterprise, voice AI, technical scoping, change management, upskilling, impact metrics

Internal tech: SaaS/vendor governance, identity access management, service delivery, corporate IT outcomes, build-vs-buy, roadmap, budget, portfolio steering

Platforms: AWS, Kubernetes, EKS, Terraform, Helm, CI/CD, DevSecOps, SRE, observability, APIs, architecture governance

Languages: French native/bilingual, English full professional, German limited working
