Geneva, Switzerland | Swiss work permit C

PROFIL PROFESSIONNEL

CTO and engineering executive for regulated platforms, digital transformation and central IT governance. Led technology organizations up to 50 people across banking, blockchain custody, cloud, DevOps and enterprise AI. Built roadmaps and budgets for executive committees, drove AWS and platform modernization, and established operating practices for cybersecurity, monitoring, quality, release management and L3 support. Now focused on Swiss institutional technology leadership: resilient information systems, service-oriented governance and responsible digital transformation.

EXPERIENCE PROFESSIONNELLE

FlowBank

Aug 2022 - Aug 2023

Global Head of Technology, Executive Director Geneva, Switzerland

- Led the technology department of approximately 40 people for a neobank covering classical banking services and crypto-enabled products.
- Built a viable technology vision to transform the bank into a fully digital institution.
- Initiated and led the transition from on-premise infrastructure to AWS.
- Prepared roadmap and budget for the Executive Committee.
- Initiated core projects including CRM and Core Banking.

Ripple / Metaco

Sep 2023 - Oct 2025

Director Software Engineering Geneva, Switzerland

- Led up to 50 professionals developing a blockchain custody solution.
- Defined and drove technical architecture across multiple products and services, ensuring coherence, maintainability and operational excellence.
- Led large multi-quarter engineering initiatives with prioritization, risk anticipation and contingency planning.
- Established practices for monitoring, code and design reviews, process automation, testing strategy, QA, release management and L3 support.

SCRYPT

Nov 2025 - Dec 2025

Head of Engineering Zurich, Switzerland

- Led engineering strategy and operations during a focused transformation mandate.
- Defined and delivered the complete product and engineering roadmap.
- Reorganized technology teams around delivery and L3 support squads, improving ownership and accountability.
- Drove company-wide AI adoption by implementing Claude Enterprise integrated through Slack with Linear, email and calendars.

Wonderful

Jan 2026 - Present

Field CTO Zurich, Switzerland

- Drive client delivery and lead presales engagements with Swiss enterprise prospects.
- Lead technical demonstrations for AI platform capabilities, translating complex product features into business value for executive and technical audiences.
- Use a strong professional network across Romandie to open strategic discussions with Swiss companies.

Site Reliability Engineer, Contractor Geneva, Switzerland

- Technically led implementation of an End User Computing solution in a security-constrained environment.
- Created EKS clusters and Helm charts for a common deployment structure.
- Used Terraform and Infrastructure as Code methods.

UBP - Union Bancaire Privee

Nov 2018 - Jul 2020

Internal Auditor Geneva, Switzerland

- Led IT and banking security audits covering governance, risk, procedures and GDPR-related controls.
- Prepared recommendations and discussed remediation with departments and leadership.
- Wrote audit reports in French and English.
- Uncovered an application-role bug affecting 0.5% of bank users during an identity access management audit.

CREA - OMNES Education

Jan 2021 - Jun 2022

Information Technology Lecturer, ReactJS Instructor Geneva, Switzerland

- Developed and delivered React courses for Web and App Development Bachelor students.
- Collaborated with industry professionals to keep the curriculum relevant and connected to real-world engineering practice.

PROJETS SELECTIONNES

Digital Bank Technology Transformation

Led FlowBank through target architecture, AWS migration, DevOps culture, budget planning, CRM, Core Banking and data-driven service enablement.

Strategy, AWS, DevOps, roadmap, budget

Blockchain Custody Engineering Organization

Scaled and organized teams, drove architecture, controlled technical debt, supported client-facing teams and improved delivery quality.

Regulated systems, custody, architecture, L3 support

Enterprise AI Operating System

Implemented Claude Enterprise at SCRYPT with Slack, Linear, email and calendar integrations for executive and cross-functional work.

Enterprise AI adoption, workflow automation

Cloud and DevOps Platform Work

Built EKS clusters, Helm deployment structures and Terraform infrastructure at Pictet; established Kubernetes, Docker, GitLab and CI/CD pipelines at BCP.

EKS, Helm, Terraform, CI/CD

FORMATION

Master of Science, Computer Science EIGSI La Rochelle

2003 - 2009

CERTIFICATIONS

Programming with Google Go	Certification	
Ethereum Developer	B9lab	2019
Quorum	Certification	

COMPETENCES TECHNIQUES

Leadership: CTO, VP Engineering, Head of Engineering, Director Software Engineering, team scaling, coaching

Governance: roadmap, budget, build-vs-buy, stakeholder alignment, executive committee advisory

Platforms: AWS, Kubernetes, EKS, Terraform, Helm, CI/CD, DevOps, SRE, monitoring

Risk: cybersecurity risk assessment, IT audit, GDPR, IAM, operational excellence

Languages: French native/bilingual, English full professional, German limited working
